**HAMPTON TOWNSHIP BOARD OF SCHOOL DIRECTORS:**

The Hampton Township School District (School District) Administration presents our Comprehensive Annual Financial Report (CAFR) for the School District for the year ended June 30, 2019. Pennsylvania State law requires that every School District publish within six months of the close of each fiscal year a complete set of audited financial statements. Our data is accurately presented in all material respects and is presented in a manner to fairly present the financial position and results of operations of the School District as measured by the financial activity of the various funds. All disclosures necessary to enable a reader to gain a maximum understanding of the School District's finances have been included. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the School District. Hosack, Specht, Muetzel and Wood LLP, Certified Public Accountants, have issued an unmodified opinion on the School District's financial statements for the year ended June 30, 2019. Their independent auditor's report is located within this report.

**PROFILE OF THE GOVERNMENT**

The Hampton Township School District is a suburban public school district located in southwestern Pennsylvania. During the 2018-2019 school year, the district educated 2,804 students residing in Hampton Township; a 16-square mile municipality located 12 miles north of Pittsburgh. A nine-member board of school directors governs the School District. The School District educates students in grades kindergarten through twelve and operates five schools - a high school, middle school and three elementary schools. Instructional areas include regular education, special education, vocational education and all necessary support services. Vocational education is provided through a jointure agreement with eight other districts with the Northern Area Special Purpose Schools as described in Note 1, Part D "Joint Venture."

During the 2018-19 school year the district employed 207 teachers, 56 paraeducators, 40 maintenance / custodial staff, 29 secretarial/administrative professional staff, 19 administrators, 8 food service staff and 32 other staff members. The District's Mission Statement and Vision as approved in its Pennsylvania Department of Education Comprehensive Plan are as follows:

**Mission Statement:**

Hampton Township School District works collaboratively with the community in support of every child becoming creative and innovative problem-solvers and communicators. The District maintains high expectations by furthering our tradition of excellence as our students develop the knowledge, character and integrity to impact the world.

**Vision Statement:**

A culture of high expectations encourages creative and innovative thinking while inspiring students to achieve their personal best.

## **PROFILE OF THE GOVERNMENT (Continued)**

### ***Budget Development***

The development of the School District budget is nearly a year-round process. The District's fiscal year begins July 1<sup>st</sup> and the next year's budget planning begins shortly thereafter with a review of the prior year's process and implementation of necessary changes. The bidding process for supplies is initiated in October when prior year bid lists are distributed to the building levels for review and updating. In November, the Superintendent and Director of Administrative Services establish a budget calendar for the upcoming year. After the budget calendar is established, tentative allocations are developed for each of the building level administrator budgets, along with allocations for technology, textbooks and athletics. These allocations are based on a per pupil amount with an additional weighting for the pupils at the secondary level. However, all administrators are required to prepare their budgets utilizing a zero-based budgeting approach. Rationale for all projected expenditures are presented to and reviewed by the Superintendent. In January, the School District Planning Document, a report that details the results of operations for the previous five years and projects the results for the next five, is shared with the board at a public meeting. At the same meeting, the estimated budget (including projected millage requirements) and the allocations are discussed and reviewed. The Board decides in January whether it will seek additional revenue above the State Act 1 Index allowance or whether it will approve a resolution stating that it will not raise taxes above the State Act 1 Index.

Upon completion of all items outlined above, a preliminary budget is generated and reviewed by the Superintendent and administration. After these meetings, adjustments are made if necessary and the preliminary budget is finalized and presented to the Board of School Directors and the public in April. After discussion of the budget in public, any further changes deemed necessary are made and the final budget is considered by the Board of School Directors in June. The budget process will be accelerated by four months in years that the District will need to seek Act 1 exceptions or voter referendum approval for any millage increase that exceeds the State Act 1 Index.

The administration has established procedures to monitor the use of budgeted funds after the board has approved the annual operating budget and authorized the expenditure of funds. The procedures have been categorized as budget responsibility, expenditure controls, budgetary transfers and management reporting. Initially, each administrator is assigned responsibility for spending within his/her area. Expenditure controls are established through a requisition/purchase order system within the School District's financial accounting software. Budgetary transfers are required by each administrator to ensure program budgets are not overspent. Finally, administrators are provided with monthly budget reports from the Business Office to monitor the progress of spending in their area of responsibility.

### ***Internal Controls***

Internal controls within the School District are developed by the Business Office administrators to provide reasonable assurance that assets are safeguarded against loss from unauthorized use or disposition, as well as to provide reliability of the financial records. These controls and procedures are documented in the Business Office Procedures Manual. Additionally, modifications to internal controls evolve from a variety of other sources, including other School District administrators, the audit professionals and the Board of School Directors. The goal of the School District's internal accounting control system is to adequately safeguard assets and to provide reasonable assurance as to the proper recording and tracking of financial activity. The School District's financial data are subject to a comprehensive audit at the end of each fiscal year by a firm of independent certified public accountants in accordance with U.S. generally accepted governmental auditing standards.

## **PROFILE OF THE GOVERNMENT (Continued)**

### ***Internal Controls (Continued)***

Additionally, the Auditor General of the Commonwealth of Pennsylvania audits school district records as they relate to State subsidy payments and the State laws. Audits are generally completed in two-year increments within two years of the end of a given fiscal year. The School District has received commendable reports from the Auditor General for the previous five audits & one limited procedure engagement – covering thirteen fiscal years (2002-03 to 2014-15). These audits and engagement resulted in no recommendations, findings or questioned costs.

### ***LOCAL ECONOMY***

The School District is coterminous with the Township of Hampton, a suburban community located north of the City of Pittsburgh. The School District encompasses 16 square miles and is made up mainly of residential housing, along with light industrial and retail enterprises. Enrollment has decreased from 3,109 students in the 2009-10 year to 2,804 students in the 2018-19 year (a 9.8% decrease.) The decrease in enrollment is similar to other suburban school districts in the region.

Hampton's current 2019-20 real estate tax millage rate of 19.38 mills is 14.56% lower than the Allegheny County average and only six Districts in the County have a lower tax rate; while thirty-five have higher tax rates. When preparing the annual budget for the District, the School Board and Administration carefully consider the burden imposed on the School District taxpayers along with the expectations of the District's parents and students to continue providing a high-quality education.

## **LONG TERM FINANCIAL PLANNING**

### ***Pennsylvania School Employees' Retirement System Contributions***

Actuarial projections for employer contributions to the Pennsylvania School Employees' Retirement System predict sustained high employer contribution rates. Details of the impact on the School District are included in the Management Discussion & Analysis Section under "Future Economic Considerations."

### ***State School District Funding - Act 1 of Special Session 2006(The Taxpayer Relief Act) as amended by Act 25 of 2011***

Under the Taxpayer Relief Act, through Act 1 of 2006 and Act 25 of 2011, Pennsylvania School Districts became subject to a change in their taxing structure. Details of Act 1 and Act 25 are included in the "Management Discussion & Analysis" Section under "Future Economic Considerations."

### ***Fund Balance***

The School District ended the 2018-19 fiscal year with an unassigned general fund balance of \$4,745,554. The unassigned fund balance is 8.77% of the 2019-20 general fund budget, which exceeds the 8% maximum amount of unassigned fund balance permitted by the Pennsylvania Department of Education for a district requesting to raise its tax rate. The District utilized \$400,000 of unassigned fund balance in balancing the 2019-20 general fund budget and will evaluate the unassigned fund balance level during the 2020-21 budget process.

## DISTRICT AWARDS AND ACCOMPLISHMENTS

- For the second consecutive year, *The Pittsburgh Business Times* ranked the Hampton High School #1 out of 145 high schools in the Western Pennsylvania region for results on the 2019 Keystone Exam.
- Hampton Middle School was honored with the 2019 “Schools to Watch” designation. Schools receiving this designation are selected by state leaders for their academic excellence, developmental responsiveness, social equity and organizational structures and processes.
- The Hampton Township School District was ranked as the 197<sup>th</sup> (out of 11,861) best school District in America by the online ranking and review resource *Niche.com* for 2018. *Niche.com* ranked school districts based on key statistics such as state assessment test scores, college readiness, graduation rates, SAT/ACT scores, teacher quality and student/parent reviews.
- The Hampton Township School Board was named as a 2018-19 “D. Richard Wynn School Board Award” recipient by the *Tri-State Area School Study Council*. To be considered for the award, school boards must demonstrate exemplary practices in addressing important issues that directly reflect on improving schooling for students over a minimum of a two-year period.
- The Hampton Township School District was inducted into the “League of Innovative Schools” by the *Digital Promise League* in August 2019. Selection to the league is competitive. School districts are selected from a competitive national pool of applicants based on their leadership, evidence of results, innovative vision for learning and commitment to equity and excellence. Presently, there are 114 school districts in 34 states who are members.
- The Hampton Township School District was the recipient of the “District Team Leadership Award” for 2019. The award is granted each year by the *Consortium for School Networking (CoSN)* and honors school district leadership teams for their transformative impact on student learning with technology.
- Hampton High School was named as a “National Blue-Ribbon School” for 2016. Hampton High School was one of only 328 schools nationwide to receive this prestigious award. National Blue-Ribbon Schools are selected for the honor based on their overall academic excellence or their progress in closing achievement gaps among student subgroups. According to the U.S. Department of Education, the award is confirmation of the hard work of students, educators, families and communities in creating safe and welcoming schools, where students master challenging content.
- Hampton High School was recognized by *US News & World Report* in its 2019 Best High Schools in the US. Hampton ranked 4<sup>th</sup> in the region, 17<sup>th</sup> in the state and 712<sup>th</sup> nationally.
- In April, 2015, the online magazine, *NerdWallet* ranked Hampton Township School District as the 4<sup>th</sup> “Best School District for your Buck” in Pennsylvania. *Nerdwallet stated the following*: “Boasting “a tradition of excellence,” it’s no surprise to see Hampton Township School District high on our list. The district’s graduation rate of 98.8% is the highest in our top 20, and 86.9% of those graduates go on to higher education. The high school offers over 16 AP courses, and requires students to perform at least 40 hours of community service before graduation. The district, where median home values are \$204,700, has been consistently recognized over the past decade for its academic accomplishments.”
- The Hampton High School Musical “Chicago: High School Edition” was nominated for four Gene Kelly Awards. The nominees and award winners were recognized at an awards show on May 24, 2018 at the Benedum Center in Pittsburgh.

## FINANCIAL REPORTING

The Government Finance Officers Association (GFOA) awards a Certificate of Achievement to school districts that prepare a Comprehensive Annual Financial Report (CAFR) that meets the rigorous standards of the GFOA. In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized CAFR whose contents conform to each of the program's standards. Such reports must satisfy both Generally Accepted Accounting Principals (GAAP) and applicable legal requirements. The School District received the award for its 2017-18 CAFR, which is included in this report. We believe our 2018-19 CAFR meets the Certificate of Achievement Program requirements and are submitting it to the GFOA to determine its eligibility for certification.

## ACKNOWLEDGEMENTS

The preparation of the Comprehensive Annual Financial Report was made possible by the efforts Tammi Kinzel, Manager of Accounting and the entire Business Office staff.

**Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Hampton Township School District, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise Hampton Township School District's basic financial statements as listed in the table of contents.

***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

***Auditor's Responsibility***

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

## **Report on the Financial Statements (Cont'd)**

### ***Auditor's Responsibility (Cont'd)***

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### ***Opinions***

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Hampton Township School District, as of June 30, 2019, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### ***Other Matters***

#### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, post-employment benefit information and pension information as shown in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### ***Other Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Hampton Township School District's basic financial statements. The introductory section, combining and individual fund financial statements, and statistical section, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and also is not a required part of the basic financial statements.

**Report on the Financial Statements (Cont'd)**

***Other Matters (Cont'd)***

***Other Information (Cont'd)***

The combining and individual fund financial statements and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

**Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated December 18, 2019, on our consideration of Hampton Township School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Hampton Township School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Hampton Township School District's internal control over financial reporting and compliance.

**Management's Discussion and Analysis**  
**June 30, 2019**

The discussion and analysis of Hampton Township School District's financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2019. The intent of this discussion and analysis is to look at the School District's financial performance as a whole. Readers should also review the transmittal letter and notes to the basic financial statements to enhance their understanding of the School District's financial performance.

The Management Discussion and Analysis (MD&A) is an element of the reporting model adopted by the Government Accounting Standards Board (GASB) in their Statement No. 34 Basic Financial Statements - and Management's Discussion and Analysis - for the State and Local Governments issued June 1999. Certain comparative information between the current year and the prior year is required to be presented in this MD&A.

**Financial Highlights**

**General Fund**

**Preparation and Approval of the 2018/19 General Fund Budget**

The 2018/19 general fund budget was approved by the Hampton Township School District Board of Directors in June 2018 with revenues of \$51,329,959 and expenditures of \$52,228,959. The deficit was balanced with the utilization of \$649,000 of the committed fund balance for the Public School Employees' Retirement System (PSERS) Rate Stabilization Fund and \$250,000 from the School District's unassigned fund balance. The budget also included a 0.18 mill or 0.96% tax increase. The 0.18 mill tax increase was necessary to balance the additional \$290,241 shortfall that existed at the 2017/18 millage rate of 18.77 mills.

The final expenditure budget included an increase in expenditures of \$1,496,043 or 2.95% from the 2017/18 budget. The primary components of the budget increase were as follows:

- The total budgeted salary increases were \$472,065 or 1.91%.
- PSERS Contributions were projected to increase by \$323,456 due to the employer contribution rate increase from 32.57% to 33.43%.
- District Cyber/Charter tuition was projected to increase by \$117,325 due to the enrollments of five additional students.

**2018/19 Actual Financial Results**

Actual 2018/19 general fund revenues were \$51,970,480 and actual expenditures (including other financing uses) were \$52,616,224 resulting in an annual deficit of \$645,744 and an ending fund balance at June 30, 2019 of \$7,506,309 of which \$4,745,554 was unassigned. The deficit of \$645,744 was favorable by \$253,256 when compared to the budgeted deficit of \$899,000. The significant budget items that impacted the School District's financial results as compared to the budget during 2018/19 are listed below.

**Financial Highlights (Cont'd)**

General Fund (Cont'd)

Revenues

School District revenues exceeded the amount budgeted by \$640,521 for a favorable variance of 1.25%. The significant revenue budget variances are outlined below.

- Current real estate tax collections exceeded the budgeted amount by \$392,258. The favorable percentage variance is 1.30% and is due to a slightly higher net taxable assessed value for the 2018/19 year than projected and a higher collection rate. The budget was constructed with a projected net taxable assessed value of \$1.717 billion and the actual net taxable assessed value was \$1.729 billion. The current real estate tax collection percentage increased from 95.19% to 95.79%.
- Interest Earnings exceeded the budgeted amount by \$190,177 for a favorable budget variance of 76%. The 2018/19 District budget included an increase in interest earnings of \$135,000 (from \$115,000 to \$250,000) based on an expectation of short-term interest rates yielding 1.85%. Actual interest rates during the 2018/19 year were significantly higher.
- Interim real estate tax collections exceeded the budgeted amount by \$150,558 for a favorable budget variance of 120%. The School District added several new commercial properties and a new housing plan during the 2018/19 year. Budgeting for interim tax collections is difficult due to the timing of the actual assessment. The timeframe for requested interim assessments forwarded to the Allegheny County Office of Property assessments is between 6 and 24 months.
- The School District received \$115,065 in "Section 1305 & 1306" tuition reimbursement from the State which was not included in the budget. This tuition reimbursement is for School District placements in private schools. The School District didn't receive this reimbursement previous years.

Expenditures

School District expenditures (including other financing uses) exceeded the budgeted amount by \$387,265 for an unfavorable variance of 0.74%. The significant expenditure budget variances are outlined below.

- The School District's special education purchased services exceed the budget by \$234,145 for a negative budget variance of 69%. The negative variance is attributable to multiple unanticipated placements in special education approved private schools and several additional cyber/charter school enrollments. The additional expense was partially offset by the aforementioned "Section 1305 & 1306" tuition revenue of \$115,065

Expenditures (Cont'd)

- The Regular Program salaries exceeded the budget by \$204,433 for a negative budget variance of 1.33%. The School District offered an early retirement incentive to instructional staff for the year ending June 30, 2019. The incentive provided eligible instructors with two annual \$15,000 contributions to their 403(b) account as well existing contractual severance benefits for unused sick days or years of service. In June 2019, seven instructors retired under the early retirement incentive and received incentives and severance payments totaling \$171,781.
- The School District's capital projects fund transfer exceeded the budget by \$175,000. The School District approved an additional \$175,000 transfer to the capital projects fund in June 2019 to fund current and future capital projects.

**Using the Annual Financial Report**

The audit report consists of an introductory section and a financial section that provide additional information regarding the School District and a single audit section which is issued to comply with federal guidelines as required in the U. S. Office of Management & Budget (OMB) Circular A-133 Compliance Supplement. Within this financial section are the management's discussion and analysis (this section) and a series of financial statements and notes to those statements. These statements are organized so that the reader can understand Hampton Township School District as an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The first two statements are government-wide financial statements - the statement of net position and the statement of activities. These provide both long-term and short-term information about the School District's overall financial status.

The remaining statements are fund financial statements that focus on individual parts of the School District's operations in more detail than the government-wide statements. The governmental funds statements detail how general School District services were financed in the short term as well as what remains for future spending. Proprietary fund statements offer short-term and long-term financial information about the activities that the School District operates like a business – specifically the food service fund. Fiduciary fund statements provide information about financial relationships where the School District acts solely as a trustee or agent for the benefit of others, to whom the resources in question belong.

The financial statements also include notes to explain some of the information in the financial statements and provide more detailed data.

**Overview of Financial Statements**

**Government-Wide Statements**

The government-wide statements report information about the School District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the Government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

Government-Wide Statements (Cont'd)

The two government-wide statements report the School District's net position and changes in net position. Net position, the difference between the School District's assets and liabilities, is only one way to measure the School District's financial health or position.

Over time, increases or decreases in the School District's net position are an indication of whether its financial health is improving or deteriorating, respectively.

To assess the overall health of the School District, you should consider additional factors, such as academic performance and demographic data and trends.

The government-wide financial statements of the School District are divided into two categories:

- **Governmental activities** - All of the School District's basic services are included here, such as instruction, administration and community services. Property taxes and state and federal subsidies and grants finance most of these activities.
- **Business-type activities** - The School District operates a food service operation and charges fees to staff, students and visitors to help it cover the costs of the food service operation.

Fund Financial Statements

The School District's fund financial statements provide detailed information about the most significant funds - not the School District as a whole. Some funds are required by state law and bond requirements.

*Governmental funds* - Most of the School District's activities are reported in governmental funds, which focus on the determination of financial position and change in financial position, not on income determination. They are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School District's operations and the services it provides. Governmental fund information helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the School District's programs. The relationship between governmental activities (reported in the statement of net position and the statement of activities) and governmental funds is reconciled in the financial statements.

*Proprietary funds* - These funds are used to account for the School District activities that are similar to business operations in the private sector; or where the reporting is on determining net income, financial position, changes in financial position, and a significant portion of funding through user charges. When the School District charges customers for services it provides - whether to outside customers or to other units in the School District

- these services are generally reported in proprietary funds. The food service fund is the School District's proprietary fund and is the same as the business-type activities we report in the government-wide statements, but provide more detail and additional information, such as cash flows.

*Fiduciary funds* - The School District is the trustee, or fiduciary, for some scholarship funds. All of the School District's fiduciary activities are reported in separate statements of fiduciary net position on Exhibit 10. We exclude these activities from the School District's other financial statement because the School District cannot use these assets to finance its operations.

**Financial Analysis of the School District as a Whole**

The School District's total net position was (\$73,215,363) at June 30, 2019 and (\$71,518,633) as restated at June 30, 2018.

Most of the School District's net position is invested in capital assets (buildings, land, and equipment). The remaining unrestricted net position is combined of restricted and unrestricted amounts. The difference between total net position and the general fund balance exists due to the current depreciated value of the School District's buildings and equipment being less than the sum of future debt payments and that land is valued at historical costs (under generally accepted accounting principles), rather than current or appraised value. The School District's land was acquired at little or no cost many years ago; however, it has significant market value.

The decrease in net position of \$1,696,730 from (\$71,518,633) as restated to (\$73,215,363) is primarily due to the following items:

- The pension liability (including deferred outflows, deferred inflows and net pension liability) increased by \$1,114,781
- The fair market value of the 2007 variable rate debt decreased by \$242,844 during the 2018/19 fiscal year.

The results of the year's operations as a whole are reported in the statement of activities. All expenses are reported in the first column. Specific charges, grants, revenues and subsidies that directly relate to specific expense categories are represented to determine the final amount of the School District's activities that are supported by other general revenues. The two largest general revenues are the local taxes assessed to School District taxpayers and the basic education subsidy provided by the state of Pennsylvania.

Summary of Significant Year-to-Year Variances

Governmental Activities

Total governmental revenues increased by \$387,039 from \$51,266,452 to \$51,653,491. This increase was primarily due to the following:

- Revenues from property taxes increased by \$1,102,758. Current real estate collections increased by \$849,546 due to the tax rate increase and increase in assessments. Interim real estate tax collections increased by \$175,682 due to new commercial and residential properties being added to the tax rolls.
- Investment earnings decreased by \$997,832. This is primarily due to the difference in fair market value change of the 2007 variable rate debt. The 2017/18 investment earnings include an increase in fair market value of \$1,088,445 and the 2018/19 investment earnings include a decrease in fair market value of \$242,844. The increase and decrease do not affect the District's annual budget or tax rate.
- Operating grants and contributions increased by \$241,478. This increase is primarily due to the increase in PSERS subsidy from the State. The PSERS subsidy increased by \$246,471 as the contribution rate increased from 32.57% to 33.43%.

Total governmental expenses increased by \$1,657,684 from \$51,592,513 to \$53,250,197, primarily due to the increase in general fund expenditures included in the original 2018/19 budget.

Business-Type Activities

The food service fund had a decrease in net position of \$100,024 in the 2018/19 fiscal year. The primary reason for the decreased results was a reduction in meal sales of \$15,248 due to lower enrollment and weather-related delays and cancellations. The expenditure increases are primarily due to technology upgrades to the cafeteria point-of-sale systems in the amount of \$28,424.

The following tables present the expenses of both the governmental activities and the business-type activities of the School District.

Table A-3 analyzes the School District's largest functions: instructional programs; instructional student support; administrative; operation and maintenance of plant services; pupil transportation; student activities; food service; as well as each program's net cost (total cost less revenues generated by the activities). This table also shows the net costs offset by the other unrestricted grants, subsidies and contributions to show the remaining financial needs supported by local taxes and other miscellaneous revenues.

Total Needs from Local Taxes and Other Revenues		<u>\$38,267,640</u>		<u>\$36,727,782</u>

The total needs from local taxes and other revenues increased by \$1,539,858. The primary reason for the increase is due to the budgeted expenditure increase in the general fund of \$1,496,043. This need was addressed with an increase in revenues from real estate and other taxes of \$1,288,453.

Table A-4 reflects the activities of the food service program, the only business-type activity of the School District.

The food service fund net results decreased by \$125,706, from a net profit of \$25,682 to a net cost of \$100,024. The primary reason for the decreased results is a decrease in meal sales of \$15,248 and technology upgrades to the cafeteria point-of-sale systems in the amount of \$28,424. The School District's meal sales declined for four years (2012/13 to 2015/16) primarily due to the requirements of the "Healthy, Hunger-Free Kids Act" and have stabilized at 63% for the previous three years. Overall participation rates are as follows:

2012/13 – 80%	2016/17 – 63%
2013/14 – 73%	2017/18 – 63%
2014/15 – 70%	2018/19 – 63%

**School District Funds**

At June 30, 2019, the School District's governmental funds reported a combined fund balance of \$10,771,277 which is a decrease of \$997,934 from the July 1, 2018 combined fund balance of \$11,769,211. The total general fund balance decreased by \$645,744 for the reasons outlined in the "Financial Highlights" section of the Management's Discussion and Analysis. The debt service fund balance increased by \$66,647 as the District's 2007 variable rate debt payments were less than budgeted. The capital reserve fund balance decreased by \$419,287. The decrease in the capital reserve fund balance is due to revenues from general fund transfers, capital lease financing and interest of \$520,634 offset by \$939,921 in capital expenditures.

**General Fund Budget**

During the fiscal year, the Board of School Directors (The Board) authorizes revisions to the original budget to accommodate differences from the original budget to the actual expenditures of the School District. All adjustments are again confirmed at the time the annual audit is accepted, which is after the end of the fiscal year. A schedule detailing the School District's original and final budget amounts compared with amounts actually paid and received is provided in the financial statements.

**Capital Assets and Debt Administration**

**Capital Assets**

At June 30, 2019, the School District had \$46,949,659 invested in a range of capital assets, including land, buildings, furniture and equipment. This amount represents a net decrease (including additions, deletions and depreciation) of \$1,616,747, or 3.32% from the previous year. This decrease is attributable to depreciation expense of \$2,692,021 exceeding the net additions and construction in progress of \$1,075,274. More detailed information about the School District's capital assets is included in Note 6 to the financial statements.

**Debt Administration**

As of July 1, 2018, the School District's total outstanding debt principal (for bonds and notes) was \$54,547,310. During the 2018/19 fiscal year, there was \$330,475 in accretion of the Series of 1995 zero coupon bonds. The School District made payments toward the principal outstanding on the 2007 VRDBs, Series 2008, 2011A, 2011B, 2016, 2017, 2018A and 2018B bonds in the total amount of \$3,045,000. The School District also made payments toward the principal of the 2016 general obligation note in the amount of \$79,689 for its share of the A. W. Beattie Career and Technical School general obligation note.

The fiscal year debt activity resulted in ending outstanding debt as of June 30, 2019, of \$51,753,096 a decrease of \$2,794,214 or 5.12%. A comprehensive analysis of the School District's long-term debt is included in the notes to the financial statements.

**Economic Factors and the 2019/20 Budget and Tax Rates**

The general fund budget for the 2019/20 year was adopted by the Hampton Township School District School Board in June 2019. The 2019/20 expenditure budget of \$54,074,418 was an increase of \$1,845,459, or 3.53% from the 2018/19 final budget. The School District's revenues at the existing millage rate of 18.95 mills were projected at \$52,399,490 resulting in a deficit of \$1,674,928. The School District was able to offset its budget deficit through the utilization of \$576,000 of its PSERS Rate Stabilization Fund (Year 9 of 15), utilization of \$400,000 of its unassigned fund balance and a real estate tax rate increase of 0.43 mills from 18.95 mills to 19.38 mills.

The comparison of budgeted revenues and expenditures categories are as follows:

**Future School District Economic Considerations (Cont'd)**

**Public School Employees' Retirement System (PSERS) Contributions (Cont'd)**

Although half of the School District's contributions are reimbursed by the state, the PSERS rate increases have a tremendous financial impact on the School District. The increase in contribution rate from 5.64% in 2010/2011 to 34.29% in 2019/2020 has added \$3,629,000 to the District's budget (net of state reimbursement). The projected future rate increases and sustained high rates will add another \$806,000 (net of state reimbursement) to the District's budget by the 2023/2024 fiscal year.

The School District was proactive in preparing for the higher PSERS contribution rates. The School District established a PSERS Rate Stabilization Fund during the 2009/2010 fiscal year. As of June 30, 2019, the fund has \$2.37 million to allocate to future PSERS costs. The School District first allocated PSERS Rate Stabilization Funds to assist in balancing the 2011/2012 budget and the current plan will continue to allocate funds through the 2025/2026 fiscal year. The annual allocations approved by the School Board are as follows:

2011/2012	\$ 68,000	2019/2020	\$576,000
2012/2013	151,000	2020/2021	505,000
2013/2014	418,000	2021/2022	430,000
2014/2015	573,000	2022/2023	352,000
2015/2016	722,000	2023/2024	265,000
2016/2017	747,000	2024/2025	172,000
2017/2018	702,000	2025/2026	70,000
2018/2019	649,000		

The PSERS Rate Stabilization Fund has provided the School District with a tremendous resource to balance its annual budgets within the Act 1 Index.

**Allegheny County Real Estate Tax Assessments**

Allegheny County completed a county-wide real estate reassessment in 2013. The updated assessments were first used by the District for the 2013/2014 budget year. The District was legally required to reduce its 2013/2014 real estate tax rate to create revenue neutrality for the change in assessed value. The outstanding appeals existing at the time of adoption of the 2013-14 budget required the District to calculate an allowance for outstanding appeals in order to adopt an equitable tax rate. The delay in settlement of many of the appeals caused the District to continue & modify this method for the 2014/15 and 2015/16 budgets as well. The previous six budgets accounted for the 2013 reassessment as follows:

- 2013/2014 Budget – Utilized a projection of settlement values for all outstanding appeals
- 2014/2015 Budget – Utilized a projection of settlement values for all outstanding appeals
- 2015/2016 Budget – Utilized a projection of settlement values for only the significant dollar amount outstanding appeals.

Act 1 of Special Session 2006 (the Taxpayer Relief Act) as amended by Act 25 of 2011

Under the Taxpayer Relief Act (Act 1), signed by the Governor of Pennsylvania on June 27, 2006, Pennsylvania school districts became subject to a change in their taxing structure. Act 1 expanded Pennsylvania's property tax and rent rebate programs for senior citizens and provided for a local referendum to consider increases to the local earned income tax or a change to a local personal income tax in order to fund dollar for dollar decreases in local property taxes.

The voters of Hampton Township rejected the proposed tax shift from the current earned income tax at 0.5% to a personal income tax at 1.2% in May 2007. The School District's tax structure will remain unchanged unless the tax shift is proposed for a future referendum.

However, the School District is still subject to a back-end referendum for future millage increases. Without voter approval by referendum, school districts may not increase the rate of any tax by more than the annual state index, nor may they increase or levy any new taxes. The state index is the average of the percentage increase in the state-wide average weekly wage (as reported by the Pennsylvania Department of Labor and Industry) and the national employment cost index (as reported by the Federal Bureau of Labor Statistics) for elementary and secondary schools. The back-end referendum requirement originally had ten exceptions under Act 1 of 2006, but was amended to include only three exceptions by Act 25 of 2011. The three remaining referendum exceptions are outlined below:

**Future School District Economic Considerations (Cont'd)**

Act 1 of Special Session 2006 (the Taxpayer Relief Act) as amended by Act 25 of 2011 (Cont'd)

1. To pay interest and principal on debt incurred prior to the effective date of Act 1.
2. To pay for special education cost increases above the index (net of state special education payments).
3. To make employer contributions to PSERS when the increase in the PSERS employer contribution rate exceeds the index, as determined by the Department of Education using the School District's total compensation for the year the exception is being sought or the School District's total compensation from the 2011/2012 year, whichever is less. This change to the PSERS exception will reduce the revenue available from the exception as salaries increase over a period of years.

The School District has not applied for nor utilized any of the Act 1 exceptions in eleven of the twelve budget years since the advent of Act 1. The School District did apply for and receive PA Department of Education approval for the use of the PSERS exception for the 2011/2012 budget year, but only used a portion of the available exception to balance the 2011/2012 budget with a 0.47 mill or 2.25% real estate tax increase.

The School District Administration and School Board prepare the budget each year in order to balance the needs of the students with the resources of the community. The School District is proud that its 2019/2020 real estate tax rate of 19.38 mills is 3.30 mills, or 14.56% lower than the average school district in Allegheny County. There are six Allegheny County school districts with a lower 2018/2019 millage rate than Hampton Township School District and thirty-five with a higher millage rate.

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation exceeds capital outlays in the period.

Depreciation Expense	\$ (2,692,021)	
Capital Outlays	1,146,315	
Net Book value of assets retired	<u>(71,041)</u>	(1,616,747)

Because some property will not be collected for several months after the Shool District's fiscal year end, they are not considered as "available" revenues in the governmental funds. Unavailable revenues decreased bt this amount this year. (128,559)

Repayment of bond, note and capital lease payable principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. 3,149,912

Some capital assets acquired this year were financed with capital leases. The amount finance by the leases is reported in the governmental funds as an other financing source. The capital leases are not revenues in the statement of activities, but constitute long-term liabilities in the statement of net position (139,113)

In the statement of activities, certain operating expenses-compensated absences (sick pay and vacations), other post-employment benefits (OPEB) and termination payments are measured by the amounts earned during the year. In governmental funds, however, expenditures for the items are measured by the amount of financial resources used (essentially, the amounts actually paid.

Interest on long-term debt in the statement of activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the statement of activities, however, interest expense is recognized as the interest accrues, regardless of when it is due.

Governmental funds report changes in investment derivative instruments only when those instruments provide or use financial resources. However, in the statement of activities, changes in the fair value of investment derivative instruments are changes in economic resources and are reported in each period in which there is a change in the fair value of the investment. This is the amount of the change in the fair value of investment derivatives in the current period.

**Hampton Township School District**  
**Notes to Financial Statements**  
**June 30, 2019**

**Note 1 - Summary of Significant Accounting Policies**

Hampton Township School District, located in Allegheny County, Pennsylvania, provides public education, kindergarten through twelfth grade, to the residents of the Township of Hampton. The School District operates under a nine-person elected Board of Directors.

**A. Basic Financial Statements - Government-Wide Statements**

The School District's basic financial statements include both government-wide (reporting the School District as a whole) and fund financial statements (reporting the School District's major funds). The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of Hampton Township School District. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Both the government-wide and fund financial statements categorize primary activities as either governmental or business-type. In the government-wide statement of net position, governmental activities are represented on a consolidated basis by column.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function, and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payment-in-lieu of taxes and other charges between various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

**B. Basic Financial Statements - Fund Financial Statements**

Fund financial statements of the School District are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts that constitutes its assets, liabilities, fund equity, revenues and expenditures. Funds are organized into three categories: governmental; proprietary; and fiduciary.

The emphasis in fund financial statements is on the major funds in the governmental category. Nonmajor funds are summarized in a single column. The nonmajor funds are combined in a column in the fund financial statements.

**Hampton Township School District**  
**Notes to Financial Statements**  
**June 30, 2019**

**Note 1 - Summary of Significant Accounting Policies (Cont'd)**

**B. Basic Financial Statements - Fund Financial Statements (Cont'd)**

**1. Governmental Funds**

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and change in financial position (sources, uses, and balances of financial resources) rather than upon net income. The School District reports these major governmental funds and fund types:

The *general fund* is the School District's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *capital projects fund* accounts for financial resources to be used for the acquisition of construction of major capital facilities or equipment (other than those financed by proprietary funds).

The School District also reports as nonmajor governmental funds the following:

The *debt service fund* accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds.

*Permanent funds* are used to account for assets held by the School District pursuant to a trust agreement. The principle portion of this fund type must remain intact, but the earnings may be used to achieve the objectives of the fund. The Emily Scott Memorial and Spanos Memorial funds are considered permanent funds. The earnings are to be used for specific school programs.

The activities reported in these funds are reported as governmental activities in the government-wide financial statements.

**2. Proprietary Funds**

The focus of proprietary fund measurement is upon determination of operating income, changes in net position, financial position, and cash flows. The generally accepted accounting principles applicable are those similar to businesses in the private sector. The School District reports the following proprietary fund type:

Enterprise funds are required to be used to account for operations for which a fee is charged to external users for goods or services and the activity is financed with debt that is solely secured by a pledge of the net revenues. The activities reported in these funds are reported as business-type activities in the government-wide financial statements. The *food service fund* accounts for the revenues, food purchases and other costs and expenses for providing meals to students and/or faculty during the school year.

**Notes to Financial Statements**  
**June 30, 2019**

**Note 1 - Summary of Significant Accounting Policies (Cont'd)**

**B. Basic Financial Statements - Fund Financial Statements (Cont'd)**

**3. Fiduciary Funds**

Fiduciary funds are used to report assets held in a trustee or agency capacity for others and are therefore not available to support School District programs. The reporting focus is on net position and changes in net position. The School District's fiduciary funds are presented in the fiduciary fund financial statements by type (pension, private purpose, or agency). The School District reports the following fiduciary fund type:

The *agency fund* represents the School District's student activity funds. These funds account for student activities in the high school and middle school.

During the course of operations, the government has activity between funds for various purposes. Any residual balances outstanding at year-end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental and internal service funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column. Similarly, balances between the funds included in business-type activities (i.e. the enterprise funds) are eliminated so that only the net amount is included as internal balances in the business-type activities column.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements, these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as transfers in the business-type activities column.

**C. Measurement Focus and Basis of Accounting**

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as *current financial resources* or *economic resources*. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements and proprietary fund financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

**Hampton Township School District**  
**Notes to Financial Statements**  
**June 30, 2019**

**Note 1 - Summary of Significant Accounting Policies (Cont'd)**

**C. Measurement Focus and Basis of Accounting (Cont'd)**

The governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Property taxes, intergovernmental revenues, interest, rent and certain miscellaneous income associated with the current fiscal period are considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). All other revenue items are considered to be measureable and available only when cash is received by the government.

The proprietary fund is reported using the *economic resources measurement focus* and the *accrual basis of accounting*. The agency fund has no measurement focus but utilizes the *accrual basis of accounting* for reporting its assets and liabilities.

**D. Joint Venture**

The School District is one of nine-member school districts of the A. W. Beattie Career Center (Beattie). Beattie provides vocational-technical training and education to participating students of the member districts. Beattie is controlled and governed by the Joint Board, which is composed of all the school board members of all the member districts. Beattie's operations are the responsibility of the Joint Committee, which consists of two representatives from each participating school district. No member of the Jointure exercises specific control over the fiscal policies or operations of Beattie. The School District's share of annual operating and capital costs for Beattie fluctuates, based on the percentage of enrollment of each member district in the school. The School District's financial obligation to Beattie for the year ended June 30, 2019, was \$533,727 which was paid in the year ended June 30, 2019 to Beattie and reported in the School District's general fund. The School District has no equity interest in Beattie as of June 30, 2019. Complete financial statements for Beattie can be obtained from the administrative offices at 9600 Babcock Boulevard, Allison Park, PA 15101-2091.

**Hampton Township School District**  
**Notes to Financial Statements**  
**June 30, 2019**

**Note 1 - Summary of Significant Accounting Policies (Cont'd)**

**E. Cash and Cash Equivalents**

The School District's policy is to maintain cash balances in interest-bearing accounts such as money market or flex funds. The market values of the funds approximate cost. For purposes of the statement of cash flows, the proprietary fund considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

**F. Investments**

Investments are stated at fair value except that treasury and agency obligations that have a remaining maturity at the time of purchase of one year or less are shown at amortized cost. Fair value is based on quoted market prices. Funds are invested pursuant to the Public School Code of 1949 and investment policy guidelines established by the School District and approved by the Members of the Board. The School Code states that authorized types of investments shall be: United States Treasury Bills; short-term obligations of the United States Government or its agencies or instrumentalities; deposits in savings accounts, time deposits or share accounts of institutions insured by the FDIC; obligations of the United States or any of its agencies or instrumentalities backed by the full faith and credit of the United States and the Commonwealth of Pennsylvania.

**G. Budgets**

The School Board approves, prior to the beginning of each year, an annual budget on the modified accrual basis of accounting for the general fund. This is the only fund for which a budget is required and for which taxes may be levied. The general fund is the only fund that has an annual budget that has been legally adopted by the School Board. The Public School Code allows the School Board to authorize budget transfer amendments during the year, but only during the last nine months of the fiscal year. The School Board approved various budget transfers throughout the school year. There were no supplemental budgetary appropriations made during the year ended June 30, 2019.

The final budget data reflected in the financial statements includes the effect of approved budget transfer amendments and, for comparative purposes. The actual amounts have also been presented. The School District expenditures may not legally exceed the revised budget amounts by function. Function is defined as a program area such as instructional services. Management may amend the budget without seeking prior approval of the Board within a function. Amendments between functions require prior Board approval. Excess of expenditures over appropriations in the general fund is presented in the required supplementary information section.

**H. Receivables and Payables**

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds". Any residual balances outstanding between the

governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances".

**I. Inventories**

On government-wide financial statements, inventories are presented at the lower of cost or market on a first-in, first-out basis, and are expensed when used.

Inventories in governmental funds are stated at cost by the first-in, first-out method. The purchase method is used to account for inventories. Under the purchase method, inventories are recorded as expenditures when purchased; however, an estimated value of inventories is reported as an asset in the general fund, if considered material. There was no material inventory balance as of June 30, 2019.

The inventory of the food service fund consists of government donated commodities which were valued at estimated value provided by the USDA and purchased commodities and supplies, valued at lower of cost or market using the first-in, first-out (FIFO) method. Any unused commodities donated by the federal government at June 30, 2019 are reported as unearned revenue.

**J. Prepaid Items**

In both the government-wide and fund financial statements, certain payments to vendors reflect costs applicable to future accounting periods are recorded as prepaid items. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

**K. Capital Assets**

Capital assets, which include property, plant, equipment and land improvements are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the School District as assets with an initial, individual cost of more than \$1,500 and an estimated useful life in excess of one year. Management has elected to include certain homogeneous asset categories with individual assets less than \$1,500 as composite groups for financial reporting purposes. In addition, capital assets purchased with long-term debt may be capitalized regardless of the thresholds established. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are measured at acquisition value.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

**Note 1 - Summary of Significant Accounting Policies (Cont'd)**

**K. Capital Assets (Cont'd)**

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

All reported capital assets are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings	50
Building Improvements	20-40
Land Improvements	20
Furniture	5-20
Vehicles	10
Equipment	5-10
Computers	5

Proprietary fund equipment purchases are capitalized in the proprietary fund at cost and depreciated on a straight-line basis over 12 years.

**L. Long-Term Obligations**

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities or proprietary fund type statement of net position. Bond premiums and discount are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discount during the current period. The face amount of debt issued is reported as other financing sources while discount on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures.

**M. Compensated Absences**

The School District's policies regarding vacation and sick time is provided through various contracts. Employees can accumulate sick and/or vacation days which they are paid for upon retirement or termination of service. The amount the employee is compensated and the number of days varies based on their contract and their years of service. The liability for these compensated absences is recorded as long-term debt in the government-wide statements. The current portion of this debt is estimated based on historical trends. In the

fund financial statements, governmental funds report only the amount of reimbursable unused vacation or sick leave to employees who have terminated their employment as of the end of the fiscal year, while the proprietary funds report the liability as it is incurred.

N. Defining Operating Revenues and Expenses

The School District's proprietary funds distinguish between operating and nonoperating revenues and expenses. Operating revenues and expenses of the School District's food service fund consist of charges for meals and the costs of providing those services, including depreciation and excluding interest cost. All other revenues and expenses are reported as nonoperating.

O. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. The School District has four items that qualify for reporting in this category. One is the deferred charge on refunding reported in the government-wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The other items in the government-wide statement of net position are related to the participation in the cost-sharing defined benefit pension plan and the School District's OPEB plan.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period and so will *not* be recognized as an inflow of resources (revenue) until that time. The School District has three items reported in the government-wide statement of net position relating to the cost-sharing defined benefit pension plan and the School District's OPEB plan. The School District also has items, which arise only under the modified accrual basis of accounting, which qualifies for reporting in this category. Accordingly, the item, *unavailable revenue*, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from property taxes and grants. The unavailable grants are also reported in the government-wide statements. These amounts are deferred and recognized as inflows of resources in the period that the amount becomes available.

**P. Equity Classifications**

**Government-Wide Statements**

Equity is classified as net position and displayed in three components:

Net investment in capital assets - consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowing that are attributable to the acquisition, construction, or improvement of those assets.

Restricted net position - consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments, or (2) law through constitutional provisions or enabling legislation.

Unrestricted net position - all other net position that does not meet the definition of "restricted" or "net investment in capital assets".

**Fund Statements - Fund Balance**

In accordance with Governmental Accounting Standards Board Statement No. 54, fund balance reporting and governmental fund type definitions, the School District classifies governmental fund balances as follows:

Nonspendable - amounts that cannot be spent because they are either (1) not in a spendable form or (2) legally or contractually required to remain intact.

Restricted - the part of fund balance that is restricted to be spent for a specific purpose. The constraints on these amounts must be externally imposed by creditors, grantors, contributors or laws or regulations of other governments; or by enabling legislation. Enabling legislation authorizes the government to assess, levy, change or mandate payments and includes a legally enforceable requirement on the use of these funds.

Committed - the portion of fund balance that can only be used for specific purposes as a result of formal Board motion, which is approval of a motion by the majority of the School Board. Once the item is committed, it cannot be used for any other purpose unless changed by the same procedures used to initially commit the money.

Assigned - reflects the School District's intent to use the money for a specific purpose but is not considered restricted or committed. The assignment of fund balance can be assigned by management in the business office.

**Fund Statements - Fund Balance (Cont'd)**

Unassigned - represents the part of spendable fund balance that has not been categorized as restricted, committed or assigned. The general fund is the only fund permitted to have a positive unassigned fund balance.

The School District's policy is that it considers restricted amounts to have been spent first when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available. It also considers committed amounts to be spent first when an expenditure is incurred for purposes for which both committed and unassigned fund balance could be used.

The purpose of the nonspendable, restricted, committed and assigned fund balance as of June 30, 2018, is as follows:

**General Fund**

1. Nonspendable fund balance of \$363,261 is for prepaid items.
2. The committed fund balance of \$2,370,000 is for employer retirement expenditures future increases.
3. The assigned fund balance of \$27,494 is for summer school programs.

**Capital Projects Fund**

The committed fund balance of \$2,217,265 is for future capital projects.

**Nonmajor Funds**

1. The nonspendable fund balance of \$20,400 is the principal portion of the permanent fund original contribution which must remain intact.
2. The restricted fund balance of \$2,227 is the earnings in the permanent fund which must be used to achieve the objectives as outlined in the agreement between the School District and the contributor.
3. The committed fund balance of \$1,025,076 is for future debt payments on the School District's 2007 variable rate bonds.

**Note 2 - Restatement of Beginning Net Position**

Hampton Township School District adopted GASB Statement No. 75, *Accounting and Financial Reporting for Post-Employment Benefits Other Than Pensions*, as of July 1, 2017. As of July 1, 2018, the beginning net position was restated to properly correct the liability and related deferred outflows and inflows in relation to the PSERS Other Post-Employment Benefit portion. The results of the restatement are summarized below.

**Note 3 - Deposits and Investments**

The deposit and investment policy of the School District adheres to state statutes and prudent business practice. There were no deposit or investment transactions during the year that were in violation of either the state statutes or the policy of the School District.

**Custodial Credit Risk - Deposits**

Custodial credit risk is the risk that in an event of a bank failure, the government's deposits may not be returned to it. The School District does not have a deposit policy for custodial credit risk. Deposits in excess of amounts covered by the Federal Deposit Insurance Corporation are collateralized in accordance with Act 72 of 1971 of the Pennsylvania State Legislature which requires the institution to pool collateral for all governments and have the collateral held by an approved custodian in the institution's name. As of June 30, 2019, \$1,720,409 of the School District's bank balance of \$1,970,409 was exposed to custodial credit risk as follows:

Uninsured and Collateral Held by Pledging Bank's Agent not in the School District's Name	<u>\$1,720,409</u>

**Custodial Credit Risk - Deposits (Cont'd)**

As of June 30, 2019, the School District had the following investments:

Investments	Fair Value
PSDLAF	<u>\$13,236,862</u>

Interest Rate Risk - The School District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

As of June 30, 2019, the School District had investments with the following maturities:

Investment Maturities (in Years)					
Investment Type	Fair Value	Less than 1	1-5	6-10	More than 10
Investment Derivative Instruments	<u>\$(2,765,844)</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$(2,765,844)</u>	<u>\$ -</u>

The School District is invested in one interest rate swap with term as noted below:

Transaction Date	02/24/04
Effective Date	08/31/07
Maturity Date	09/01/27
Terms	School District pays fixed from 5.0% to 5.02164% and receives 68% of one-month LIBOR plus 30 basis points
Notional Amount	\$15,500,000

Credit Risks - The Pennsylvania Public School Code authorizes the types of investments allowed. These are described in Note 1F. The School District has no investment policy that would further limit its investment choices. The School District's investments in Pennsylvania School District Liquid Asset Fund (PSDLAF) is rated AAAM by Standard & Poor's.

**Note 3 - Deposits and Investments (Cont'd)**

**Custodial Credit Risk - Deposits (Cont'd)**

Credit Risk Relating to its Investment Derivative - The risk the School District will have is exposure to a swap counterparty under the swap. Credit risk is mitigated by several factors, including minimum credit rating criteria and ratings downgrade triggers in the swap documents. The credit ratings for the counterparties are as follows: Moody's - Aa2; Standard & Poor's - A+ and Fitch - AA-.

Concentration of Credit Risk - The School District places no limit on the amount it may invest in any one issue.

**Investments**

The Pennsylvania School District Liquid Asset Fund (PSDLAF) was established as a common law trust, organized under laws of the Commonwealth of Pennsylvania. Shares of the fund are offered to certain Pennsylvania school districts, intermediate units, area vocational-technical schools and municipalities. The purpose of the fund is to enable such governmental units to pool their available funds for investments authorized by Section 440.1 of the Pennsylvania Public School Code of 1949, as amended.

PSDLAF is governed by an elected board of trustees who are responsible for the overall management of the fund. The trustees are elected from the several classes of local governments participating in the fund. The fund is audited annually by independent auditors. The fund is a local government investment pool and is exempt from the requirement of SEC's Rule 2(a)7 of the Investment Company Act of 1940. The fund measures for financial reporting purposes its assets at amortized cost and maintains a stable net asset value of \$1 per share.

Accordingly, the fair value of the position in PSDLAF is the same as the value of PSDLAF shares. There are no limitations or restrictions on withdrawals.

**Fair Value of Investments**

The School District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The School District has the following recurring fair value measurements as of June 30, 2019:

- Investment derivative instruments of (\$2,765,844) are valued using significant observable inputs (Level 2 inputs). The valuation was performed using a proprietary model which incorporated a model described in GASBS No. 72 used to calculate the fair value of the swap. There was no change in the valuation technique used between years.

**Note 4 - Real Estate Taxes**

The municipal tax collector bills and collects real estate taxes on behalf of the School District based upon assessed values provided by the County. The School District's tax rate for all purposes in 2018/2019 was 18.95 mills (\$18.95 per \$1,000 assessed valuation). The tax calendar for real estate taxes levied for 2018/2019 is as follows:

Tax Levy Date	July 1, 2018
2% Discount Period	Through August 31, 2018
Face Payment Period	September 1 - October 31, 2018
10% Penalty Period	November 1 Until Liened
Lien Filing Date	July 1, 2019

The amounts shown as delinquent real estate taxes receivable have not been recorded as revenue on the fund statements. These taxes are, however, recorded as deferred revenue on the balance sheet until they are received. The amounts reported for this receivable are reported on the balance sheet in the amount of \$724,768 net of estimated uncollectible of \$80,530, along with other taxes receivable of \$769,481.

**Note 5 - Due from Other Governments**

Amounts due from other governments represent receivables for revenues earned by the School District. At June 30, 2019, the following amounts are due from other governmental units:

**Note 9 - Long-Term Debt (Cont'd)**

The debt service source for the above debt is the general fund. The bonds were issued for capital project purposes. The interest requirements on the 2007 variable rate bonds used in the amounts below were based on the rate effective at year end. Interest on the variable rate bonds shall be no greater than 12% per annum, or the weekly rate, which is determined by the remarketing agent. The general fund typically has been used in prior years to liquidate the liability for capital leases, compensated absences and other post-employment benefit obligations. The net pension liability is allocated between the general fund and proprietary fund as that liability is directly related to and expected to be paid from these two funds.

The annual requirements of School District funds to amortize all debt outstanding (excluding compensated absences, capital leases and termination benefits) as of June 30, 2019, including interest, sinking fund payments and accretion on the capital appreciation bonds, are as follows:

**Note 10 - Capital Leases**

The School District has entered into a lease agreement as lessee for financing the acquisition of copiers. The lease agreement qualifies as a capital lease for accounting purposes and, therefore, has been recorded at the present value of the future minimum lease payments as of the inception date. If the School District is in default of the lease, the School District must deliver, at its expense, the equipment to the lessor.

**Note 11 - Termination Benefits**

The School District approved an early retirement incentive for 2018/2019, which provided retirement enhancements to qualified employees. In order to qualify under the incentive, the employee must have at least seventeen years of service in Hampton Township School District and retire by June 30, 2019.

Under the program, teachers electing the incentive receive a payment of \$30,000. The payment is being distributed in equal annual installments of \$15,000 which are made directly to the employee's 403(b) plan. The School District did not use a discount rate to calculate the discounted present value of the expected future benefit payments since the payments will be made in just over one year from June 30, 2019. As of June 30, 2019, seven teachers participated in the plan. The liability as of June 30, 2019 is \$105,000.

A. Summary of Significant Accounting Policies

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public School Employees' Retirement System (PSERS) and additions to/deductions from PSERS's fiduciary net position have been determined on the same basis as they are reported by PSERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

B. General Information about the Pension Plan

1. Plan Description

PSERS is a governmental cost-sharing multi-employer defined benefit pension plan that provides retirement benefits to public school employees of the Commonwealth of Pennsylvania. The members eligible to participate in the System include all full-time public school employees, part-time hourly public school employees who render at least 500 hours of service in the school year, and part-time per diem public school employees who render at least 80 days of service in the school year in any of the reporting entities in Pennsylvania. PSERS issues a publicly available financial report that can be obtained at [www.psers.pa.gov](http://www.psers.pa.gov).

2. Benefits Provided

PSERS provides retirement, disability, and death benefits. Members are eligible for monthly retirement benefits upon reaching (a) age 62 with at least 1 year of credited service; (b) age 60 with 30 or more years of credited service; or (c) 35 or more years of service regardless of age. Act 120 of 2010 (Act 120) preserves the benefits of existing members and introduced benefit reductions for individuals who become new members on or after July 1, 2011. Act 120 created two new membership classes, Membership Class T-E (Class T-E) and Membership Class T-F (Class T-F). To qualify for normal retirement, Class T-E and Class T-F members must work until age 65 with a minimum of 3 years of service or attain a total combination of age and service that is equal to or greater than 92 with a minimum of 35 years of service. Benefits are generally equal to 2% or 2.5%, depending upon membership class, of the member's final average salary (as defined in the Code) multiplied by the number of years of credited service. For members whose membership started prior to July 1, 2011, after completion of five years of service, a member's right to the defined benefits is vested and early retirement benefits may be elected. For Class T-E and Class T-F members, the right to benefits is vested after ten years of service.

B. General Information about the Pension Plan (Cont'd)

2. Benefits Provided (Cont'd)

Participants are eligible for disability retirement benefits after completion of five years of credited service. Such benefits are generally equal to 2% or 2.5%, depending upon membership class, of the member's final average salary (as defined in the Code) multiplied by the number of years of credited service, but not less than one-third of such salary nor greater than the benefit the member would have had at normal retirement age. Members over normal retirement age may apply for disability benefits.

Death benefits are payable upon the death of an active member who has reached age 62 with at least one year of credited service (age 65 with at least three years of credited service for Class T-E and Class T-F members) or who has at least five years of credited service (ten years for Class T-E and Class T-F members). Such benefits are actuarially equivalent to the benefit that would have been effective if the member had retired on the day before death.

3. Contributions

Member Contributions

Active members who joined the System prior to July 22, 1983, contribute at 5.25% (Membership Class T-C) or at 6.50% (Membership Class T-D) of the member's qualifying compensation.

Members who joined the System on or after July 22, 1983, and who were active or inactive as of July 1, 2001, contribute at 6.25% (Membership Class T-C) or at 7.50% (Membership Class T-D) of the member's qualifying compensation.

Members who joined the System after June 30, 2001 and before July 1, 2011, contribute at 7.50% (automatic Membership Class T-D). For all new hires and for members who elected Class T-D membership, the higher contribution rates began with service rendered on or after January 1, 2002.

Members who joined the System after June 30, 2011, automatically contribute at the Membership Class T-E rate of 7.5% (base rate) of the member's qualifying compensation.

All new hires after June 30, 2011, who elect Class T-F membership, contribute at 10.3% (base rate) of the member's qualifying compensation. Membership Class T-E and Class T-F are affected by a "shared risk" provision in Act 120 of 2010 that in future fiscal years could cause the Membership Class T-E contribution rate to fluctuate between 7.5% and 9.5% and Membership Class T-F contribution rate to fluctuate between 10.3% and 12.3%.

B. General Information about the Pension Plan (Cont'd)

3. Contributions (Cont'd)

Employer Contributions

The School District's contractually required contribution rate for fiscal year ended June 30, 2019 was 32.60% of covered payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the School District were \$8,049,883 for the year ended June 30, 2019.

C. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2019, the School District reported a liability of \$84,489,000 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by rolling forward the System's total pension liability as of June 30, 2017 to June 30, 2018. The School District's proportion of the net pension liability was calculated utilizing the employer's one-year reported covered payroll as it relates to the total one-year reported covered payroll.

At June 30, 2019, the School District's proportion was 0.1760%, which was an increase of 0.0040% from its proportion measured as of June 30, 2018.

For the year ended June 30, 2019, the School District recognized pension expense of \$9,164,664. At June 30, 2019, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 680,000	\$1,308,000
Net difference between projected and actual investment earnings	414,000	-

Contributions subsequent to the measurement date	<u>8,049,883</u>	<u>-</u>
	<u>\$13,554,402</u>	<u>\$2,372,000</u>

\$8,049,883 reported as deferred outflows of resources related to pensions resulting from School District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended June 30,	
2019	\$2,747,545
2020	1,443,311
2021	(754,823)
2022	<u>(303,514)</u>
	<u>\$3,132,519</u>

1. Actuarial Assumptions

The total pension liability as of June 30, 2018 was determined by rolling forward the System's total pension liability at June 30, 2017 to June 30, 2018 using the following actuarial assumptions, applied to all periods included in the measurement:

- Actual cost method - Entry Age Normal - level % of pay.
- Investment return - 7.25%, includes inflation at 2.75%.
- Salary growth - Effective average of 5.00%, comprised of inflation of 2.75% and 2.25% for real wage growth and for merit or seniority increases.

C. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Cont'd)

1. Actuarial Assumptions (Cont'd)

- Mortality rates were based on the RP-2014 Mortality Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2015 Mortality Improvement Scale.

The actuarial assumptions used in the June 30, 2017 valuation were based on the results of an actuarial experience study that was performed for the five year period ending June 30, 2015.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The pension plan's policy in regard to allocation of invested plan assets is established and may be amended by the Board. Plan assets are managed with a long-term objective of achieving and maintaining a fully funded status of the benefits provided through the pension.

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Global public equity	20.0%	5.2%
Fixed income	36.0%	2.2%
Commodities	8.0%	3.2%
Absolute return	10.0%	3.5%
Risk parity	10.0%	3.9%
Infrastructure/MLPs	8.0%	5.2%
Real estate	10.0%	4.2%
Alternate investments	15.0%	6.7%

C. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Cont'd)

1. Actuarial Assumptions (Cont'd)

The above was the Board's adopted asset allocation policy and best estimates of geometric real rates of return for each major asset class as of June 30, 2018.

2. Discount Rate

The discount rate used to measure the total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at contractually required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

3. Sensitivity of School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability, calculated using the discount rate of 7.25%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.25%) or 1 percentage point higher (8.25%) than the current rate:

	(In thousands)		
	1.00% Decrease	Current Discount Rate	1.00% Increase
	6.25%	7.25%	8.25%
School District's proportionate share of the net pension liability	\$104,730	\$84,489	\$67,374

4. Pension Plan Fiduciary Net Position

Detailed information about PSERS' fiduciary net position is available in PSERS Comprehensive Annual Financial Report which can be found on the System's website at [www.psers.pa.gov](http://www.psers.pa.gov).

**Note 13 - Contingent Liabilities**

Hampton Township School District participates in a number of federally assisted grant programs, principal of which are IDEA and National School Lunch Program. The programs are subject to program compliance audits by the grantors or their representatives. The audits of some of these programs for and including the year ended June 30, 2019 have not yet been conducted. Accordingly, the School District's compliance with applicable grant requirements will be established at some future date. The amount, if any, of expenditures which may be disallowed by the granting agencies cannot be determined at this time although the School District expects such amounts, if any, to be immaterial.

**Note 14 - Other Post-Employment Benefit Plan - School District**

**A. Plan Description**

Hampton Township School District administers a single-employer defined benefit healthcare plan ("The Supplemental Health Plan"). The plan provides medical, prescription drug, dental and vision for all employees. The benefits provided are for the eligible retirees and their spouses through the School District group health insurance plan which covers both active and retired members. The general fund is the fund to liquidate the other post-employment benefit obligation. Benefit provisions are mostly established through negotiations between the School District and union or group representing the employees. The plan does not issue a publicly available financial report.

**B. Funding Policy**

Medical Benefits

Qualified retirees under PA Act 110 can elect to remain in the School District's medical benefits plan provided they pay 100% of the premium rate.

For employees who retire and remain in the medical plan, they have a choice of either a PPO or an EPO product. Both programs are provided through the Allegheny County Schools Health Insurance Consortium (ACSHIC) and are administered by Highmark. The PPO program is referred to as Community Blue Flex PPO and the EPO is referred to as Community Blue Flex EPO. A summary of the benefits available are as follows:

Eligibility/Contributions

The eligibility criteria are that the employee must meet the "superannuation" criteria under PSERS or qualify under PSERS retirement criteria, which are as follows:

Eligibility/Contributions (Cont'd)

**PSERS Superannuation Retirement**

- For individuals who were members of PSERS prior to July 1, 2011, an employee is eligible for PSERS superannuation retirement upon reaching age 60 with 30 years of PSERS service, age 62 with 1 year of PSERS service or 35 years of PSERS service regardless of age.
- For individuals who became members of PSERS on or after July 1, 2011, an employee is eligible for PSERS superannuation retirement upon reaching age 65 with 3 years of PSERS service or upon attainment of a total combination of age plus service equal to or greater than 92 with a minimum of 35 years of PSERS service.

**PSERS Retirement**

- For individuals who were members of PSERS prior to July 1, 2011, an employee is eligible for PSERS retirement if he (or she) is eligible for either: 1) PSERS early retirement while under 62 with 5 years of PSERS service; or 2) PSERS superannuation retirement upon reaching age 60 with 30 years of PSERS service, age 62 with 1 year of PSERS service or 35 years of PSERS service regardless of age.
- For individuals who became members of PSERS on or after July 1, 2011, an employee is eligible for PSERS retirement if he (or she) is eligible for either: 1) PSERS early retirement while under 65 with 10 years of PSERS service; or 2) PSERS superannuation retirement upon reaching age 65 with 3 years of PSERS service or upon attainment of a total combination of age plus service equal to or greater than 92 with a minimum of 35 years of PSERS service.
- All individuals are eligible for a special early retirement upon reaching age 55 with 25 years of PSERS service.

Retirees are eligible to purchase medical, prescription drug, dental and vision benefits through the School District's insurance carriers. All retirees must pay 100% of the School District's cost for the purchase of medical, dental and vision benefits. Retirees can opt to purchase medical benefits until they reach the age of 65. Dental and vision benefits may be purchased for as long as the retiree and/or spouse chooses.

**C. Total OPEB Liability**

The School District's total OPEB liability of \$729,014 was measured as of July 1, 2018, and was determined by an actuarial valuation as of that date.

**D. Actuarial Methods and Assumptions**

The total OPEB liability in the July 1, 2018 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation	3.00%
Salary Increases	3.50%
Discount Rate	2.98%
Healthcare Cost Trend Rates	6.00% for 2018/2019, 5.50% for 2019 through 2021 decreasing gradually from 5.4% in 2022 to 3.8% in 2075

The discount rate was based on the S & P Municipal Bond 20-Year High Grade Rate Index.

Separate mortality rates are assumed preretirement and postretirement using the rates assumed in PSERS defined benefit pension plan actuarial valuation.

The actuarial assumptions used in the July 1, 2018 valuation were selected using input from the School District based upon actual experience.

A. Summary of Significant Accounting Policies

Other Post-Employment Benefits

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Public School Employees' Retirement System (PSERS) and additions to/deductions from PSERS's fiduciary net position have been determined on the same basis as they are reported by PSERS. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

B. General Information about the Health Insurance Premium Assistance Program

1. Health Insurance Premium Assistance Program

The System provides Premium Assistance which, is a governmental cost-sharing, multiple-employer other postemployment benefit plan (OPEB) for all eligible retirees who qualify and elect to participate. Employer contribution rates for Premium Assistance are established to provide reserves in the Health Insurance Account that are sufficient for the payment of Premium Assistance benefits for each succeeding year. Effective January 1, 2002 under the provisions of Act 9 of 2001, participating eligible retirees are entitled to receive premium assistance payments equal to the lesser of \$100 per month or their out-of-pocket monthly health insurance premium. To receive premium assistance, eligible retirees must obtain their health insurance through either their school employer or the PSERS' Health Options Program. As of June 30, 2018, there were no assumed future benefit increases to participating eligible retirees.

2. Premium Assistance Eligibility Criteria

Retirees of the System can participate in the Premium Assistance program if they satisfy the following criteria:

- Have 24 ½ or more years of service, or
- Are a disability retiree, or
- Have 15 or more years of service and retired after reaching superannuation age, and
- Participate in the HOP or employer-sponsored health insurance program

3. Pension Plan Description

Participating eligible retirees are entitled to receive premium assistance payments equal to the lesser of \$100 per month or their out-of-pocket monthly health insurance premium. To receive premium assistance, eligible retirees must obtain their health insurance through either their school employer or the PSERS' Health Options Program. As of June 30, 2018, there were no assumed future benefit increases to participating eligible retirees.

**Employer Contributions**

The School District's contractually required contribution rate for fiscal year ended June 30, 2019 was 0.83% of covered payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the OPEB plan from the School District were \$204,951 for the year ended June 30, 2019.

**C. OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB**

At June 30, 2019, the School District reported a liability of \$3,670,000 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2018, and the total OPEB liability used to calculate the net OPEB liability was determined by rolling forward the System's total OPEB liability as of June 30, 2017 to June 30, 2018. The School District's proportion of the net OPEB liability was calculated utilizing the employer's one-year reported covered payroll as it relates to the total one-year reported covered payroll. At June 30, 2019, the School District's proportion was 0.1760%, which was an increase of 0.0040% from its proportion measured as of June 30, 2018.

For the year ended June 30, 2019, the School District recognized OPEB expense of \$172,327. At June 30, 2019, the School District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

**1. Actuarial Assumptions**

The total OPEB liability as of June 30, 2018 was determined by rolling forward the System's total OPEB liability at June 30, 2017 to June 30, 2018 using the following actuarial assumptions, applied to all periods included in the measurement:

- Actuarial cost method - Entry Age Normal - level % of pay.
- Investment return - 2.98%, S&P 20 Year Municipal Bond Rate.
- Salary growth - Effective average of 5.00%, comprised of inflation of 2.75% and 2.25% for real wage growth and for merit or seniority increases.
- Premium Assistance reimbursement is capped at \$1,200 per year.
- Assumed Healthcare cost trends were applied to retirees with less than \$1,200 in premium assistance per year.
- Mortality rates were based on the RP-2014 Mortality Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2015 Mortality Improvement Scale.
- Participation rate:
  - Eligible retirees will elect to participate pre age 65 at 50%.
  - Eligible retirees will elect to participate post age 65 at 70%.

The actuarial assumptions used in the June 30, 2017 valuation were based on the results of an actuarial experience study that was performed for the five year period ending June 30, 2015.

The following assumptions were used to determine the contribution rate:

- The results of the actuarial valuation as of June 30, 2016 determined the employer contribution rate for fiscal year 2018.
- Cost Method: Amount necessary to assure solvency of Premium Assistance through the third fiscal year after the valuation date.
- Asset valuation method: Market Value.
- Participation rate: 63% of eligible retirees are assumed to elect premium assistance.
- Mortality rates and retirement ages were based on the RP-2000 Combined Healthy Annuitant Tables with age set back 3 for both males and females for healthy annuitants and for dependent beneficiaries. For disabled annuitants, the RP-2000 Combined Disabled Tables with age set back 7 years for males and 3 years for females for disabled annuitants. (A unisex table based on the RP-2000 Combined Healthy Annuitant Tables with age set back 3 years for both genders assuming the population consists of 25% males and 75% females is used to determine actuarial equivalent benefits.)

**1. Actuarial Assumptions (Cont'd)**

Investments consist primarily of short-term assets designed to protect the principal of the plan assets. The expected rate of return on OPEB plan investments was determined using the OPEB asset allocation policy and best estimates of geometric real rates of return for each asset class.

The OPEB plan's policy in regard to the allocation of invested plan assets is established and may be amended by the Board. Under the program, as defined in the retirement code employer contribution rates for Premium Assistance are established to provide reserves in the Health Insurance Account that are sufficient for the payment of Premium Assistance benefits for each succeeding year.

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Cash	5.9%	0.03%
US Core Fixed Income	92.8%	1.20%
Non-US Developed Fixed	<u>1.3%</u>	0.04%
	<u>100%</u>	

The above was the Board's adopted asset allocation policy and best estimates of geometric real rates of return for each major asset class as of June 30, 2018.

**2. Discount Rate**

The discount rate used to measure the Total OPEB Liability was 2.98%. Under the plan's funding policy, contributions are structured for short term funding of Premium Assistance. The funding policy sets contribution rates necessary to assure solvency of Premium Assistance through the third fiscal year after the actuarial valuation date. The Premium Assistance account is funded to establish reserves that are sufficient for the payment of Premium Assistance benefits for each succeeding year. Due to the short-term funding policy, the OPEB plan's fiduciary net position was not projected to be sufficient to meet projected future benefit payments, therefore the plan is considered a "pay-as-you-go" plan. A discount rate of 2.98% which represents the S&P 20 year Municipal Bond Rate at June 30, 2018, was applied to all projected benefit payments to measure the total OPEB liability.

**3. Sensitivity of System Net OPEB Liability to Change in the Healthcare Cost Trend Rates**

Healthcare cost trends were applied to retirees receiving less than \$1,200 in annual Premium Assistance. As of June 30, 2018, retirees Premium Assistance benefits are not subject to future healthcare cost increases. The annual Premium Assistance reimbursement for qualifying retirees is capped at a maximum of \$1,200. As of June 30, 2017, 93,380 retirees were receiving the maximum amount allowed of \$1,200 per year. As of June 30, 2017, 1,077 members were receiving less than the maximum amount allowed of \$1,200 per year. The actual number of retirees receiving less than the \$1,200 per year cap is a small percentage of the total population and has a minimal impact on Healthcare Cost Trends as depicted below.

The following presents the System net OPEB liability, calculated using current Healthcare cost trends as well as what the System net OPEB liability would be if its health cost trends were 1 percentage point lower or 1 percentage point higher than the current rate:

	(In thousands)		
	1.00% Decrease	Current	1.00% Increase
System Net OPEB Liability	\$3,669	\$3,670	\$3,670

**4. Sensitivity of School District's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate**

The following presents the net OPEB liability, calculated using the discount rate of 2.98%, as well as what the net OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (1.98%) or 1 percentage point higher (3.98%) than the current rate:

	(In thousands)		
	1.00% Decrease 1.98%	Current Discount Rate 2.98%	1.00% Increase 3.98%
School District's Proportionate Share of the Net OPEB Liability	\$4,173	\$3,670	\$3,251

5. OPEB Plan Fiduciary Net Position

Detailed information about PSERS' fiduciary net position is available in PSERS Comprehensive Annual Financial Report which can be found on the System's website at [www.psers.pa.gov](http://www.psers.pa.gov).

**Note 16 - Risk Management**

The School District is one of forty-six members of the Allegheny County School Health Insurance Consortium (Consortium) which purchases health benefits on behalf of participating public school districts. The School District is billed monthly based on employee count and coverage information at rates established by the Consortium at the beginning of each fiscal year. As the Consortium is self-insured, rates are established with the objective of satisfying estimated claims and other costs, as well as maintaining working capital requirements. Contributions to the Consortium totaled \$3,615,088 and \$3,518,058 for the years ended June 30, 2018 and 2017, respectively.

Participating school districts are permitted to withdraw from the Consortium under terms specified in the agreement. Withdrawing participants are entitled to or responsible for a proportionate share of the Consortium net position or deficiency in net position, respectively, as determined on the fiscal year-end date after withdrawal. As of June 30, 2019, the net position of the Consortium were \$62,172,279 of which \$844,788 is attributable to the School District.

The School District participates in an insurance program offered by a commercial insurance company. It purchases commercial insurance policies for risks of losses for casualty, workmen's compensation and liability claims.

The School District is exposed to various risks of loss related to tort; theft of, damage to and destruction of assets; errors and omissions; injuries to employees and natural disasters. These risks are covered by commercial insurance purchased from independent third parties.

Settled claims for these risks have not exceeded commercial insurance coverage for the past three years.

**Note 17 - On-Behalf Payments**

The amounts recognized for revenues and expenditures for on-behalf payments relating to fringe benefits for the year ended June 30, 2019 was \$5,073,021. This includes \$4,117,616 recognized for revenues and expenditures relating to pension contributions for its employees that the Commonwealth of Pennsylvania paid to the Public School Employees' Retirement System (PSERS) for pension and \$955,405 to the federal government for social security and Medicare taxes for the year ended June 30, 2019. The School District pays these on-behalf payments directly to PSERS and the government and is reimbursed by the Commonwealth for their appropriate share.

**Note 18 - Derivative Instruments**

The fair value balances and notional amounts of derivative instruments outstanding at June 30, 2019, classified by type, and the change in fair value of such derivative instruments for the year ended as reported in the June 30, 2019 financial statements, are as follows:

	<u>Change in Fair Value</u>		<u>Fair Value at June 30, 2019</u>		Notional in Thousands

## **HAMPTON TOWNSHIP SCHOOL DISTRICT AND HAMPTON TOWNSHIP**

### **The School District**

The Hampton Township School District shares the same boundaries and residents as Hampton Township. The District encompasses approximately 16 square miles in northern Allegheny County and is located approximately 12 miles northeast of the City of Pittsburgh. The first school in Hampton was opened in 1800 in a log cabin. The first public schools were recorded with the Commonwealth of Pennsylvania in 1862. The District is bordered by Shaler Township (Shaler Area School District) on the south; McCandless Township (North Allegheny School District) on the west; Richland Township (Pine-Richland School District) on the north; and West Deer Township (Deer Lakes School District) and Indiana Township (Fox Chapel Area School District) on the east.

### **The Township**

The Township of Hampton was founded in 1861 and incorporated as a local government within the Commonwealth of Pennsylvania in 1875. Effective August 27, 1981, the Township became a Home Rule Municipality under Pennsylvania Act 62, the Home Rule Charter and Optional Plans Law, following a referendum. The Township is governed by a five-member Council, each of which is elected at large.

Hampton Township was named after Judge Moses Hampton and included parts of present day McCandless, West Deer and Indiana Townships. Early Hampton was made up of eight villages that slowly merged into Hampton Township, as it is known today. During the 1800s, Hampton was known as an agricultural center with farming being the major trade. The Township eventually moved from an agricultural based community to a residential community.

Today, Hampton serves as a bedroom community for the Metropolitan Pittsburgh area. In addition to the light industry present in the Township, the Route 8 corridor provides commercial and retail businesses. The majority of the land use (88% of the 2018 assessed value) in the Township is residential.

Because of its proximity to Pittsburgh, Hampton enjoys many of the benefits of a larger city. These benefits include higher education, culture and the arts, professional sports and health care.

**Independent Auditor's Report on Internal Control Over Financial Reporting  
and on Compliance and Other Matters Based on an Audit of Financial  
Statements Performed in Accordance With *Government Auditing Standards***

Members of the Board  
Hampton Township School District  
Allison Park, Pennsylvania

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Hampton Township School District as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise Hampton Township School District's basic financial statements, and have issued our report thereon dated December 18, 2019.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Hampton Township School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Hampton Township School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Hampton Township School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Hampton Township School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**Independent Auditor's Report on Compliance for Each Major Program and  
on Internal Control Over Compliance Required by the Uniform Guidance**

Members of the Board  
Hampton Township School District  
Allison Park, Pennsylvania

**Report on Compliance for Each Major Federal Program**

We have audited Hampton Township School District's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Hampton Township School District's major federal programs for the year ended June 30, 2019. Hampton Township School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

***Management's Responsibility***

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

***Auditor's Responsibility***

Our responsibility is to express an opinion on compliance for each of Hampton Township School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Hampton Township School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

## **Report on Compliance for Each Major Federal Program (Cont'd)**

### ***Auditor's Responsibility (Cont'd)***

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Hampton Township School District's compliance.

### ***Opinion on Each Major Federal Program***

In our opinion, Hampton Township School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2019.

## **Report on Internal Control Over Compliance**

Management of Hampton Township School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Hampton Township School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Hampton Township School District's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

**Exhibit D**

**Note A - Basis of Presentation**

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal award activity of Hampton Township School District under programs of the federal government for the year ended June 30, 2018. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of Hampton Township School District, it is not intended to and does not present the financial position, changes in net position, or cash flows of Hampton Township School District.

**Note B - Summary of Significant Accounting Policies**

- (1) Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.
- (2) Hampton Township School District has elected not to use the 10 percent de minimis indirect cost rate as allowed under the Uniform Guidance.

**Note C - Source Code**

The Source Code (I) indicates funds received indirectly.

**Note D - Reconciliation with Subsidy Confirmation**
