INTRODUCTORY SECTION

Hampton Township School District

Jeffrey Kline
Director of Administrative Services
Tammi Kinzel
Manager of Accounting

December 20, 2016

HAMPTON TOWNSHIP BOARD OF SCHOOL DIRECTORS:

The Hampton Township School District (School District) Administration presents our Comprehensive Annual Financial Report (CAFR) for the School District for the year ended June 30, 2016. Pennsylvania State law requires that every School District publish within six months of the close of each fiscal year a complete set of audited financial statements. Our data is accurately presented in all material respects and is presented in a manner to fairly present the financial position and results of operations of the School District as measured by the financial activity of the various funds. All disclosures necessary to enable a reader to gain a maximum understanding of the School District's finances have been included. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the School District. Hosack, Specht, Muetzel and Wood LLP, Certified Public Accountants, have issued an unqualified opinion on the School District's financial statements for the year ended June 30, 2016. Their independent auditor's report is located within this report.

PROFILE OF THE GOVERNMENT

The Hampton Township School District is a suburban public school district located in southwestern Pennsylvania. During the 2015-2016 school year, the district educated 2,909 students residing in Hampton Township; a 16 square mile municipality located 12 miles north of Pittsburgh. A nine-member board of school directors governs the School District. The School District educates students in grades kindergarten through twelve and operates five schools - a high school, middle school and three elementary schools. Instructional areas include regular education, special education, vocational education and all necessary support services. Vocational education is provided through a jointure agreement with eight other districts with the Northern Area Special Purpose Schools as described in Note 1, Part D "Joint Venture."

During the 2015-16 school year the district employed 206 teachers, 49 paraprofessionals, 40 maintenance / custodial staff, 29 secretarial staff, 19 administrators, 9 food service staff and 27 other staff members. The District's Mission Statement and Vision as approved in its Pennsylvania Department of Education Comprehensive Plan are as follows:

Mission Statement:

Hampton Township School District works collaboratively with the community in support of every child becoming creative and innovative problem-solvers and communicators. The District maintains high expectations by furthering our tradition of excellence as our students develop the knowledge, character and integrity to impact the world.

Vision Statement:

A culture of high expectations encourages creative and innovative thinking while inspiring students to achieve their personal best.

PROFILE OF THE GOVERNMENT (Continued)

Budget Development

The development of the School District budget is a year round process. The District's fiscal year begins July 1st and the next year's budget planning begins shortly thereafter with a review of the prior year's process and implementation of necessary changes. The bidding process for supplies is initiated in October when prior year bid lists are distributed to the building levels for review and updating. In November, the Superintendent and Director of Administrative Services establish a budget calendar for the upcoming year. After the budget calendar is established, tentative allocations are developed for each of the building level administrator budgets, along with allocations for technology, textbooks and athletics. These allocations are based on a per pupil amount with an additional weighting for the pupils at the secondary level. However, all administrators are required to prepare their budgets utilizing a zero-based budgeting approach. Rationale for all projected expenditures are presented to and reviewed by the Superintendent. In January, the School District Planning Document, a report that details the results of operations for the previous five years and projects the results for the next five, is shared with the board at a public meeting. At the same meeting, the estimated budget (including projected millage requirements) and the allocations are discussed and reviewed. The Board decides in January whether it will seek additional revenue above the State Act 1 Index allowance or whether it will approve a resolution stating that it will not raise taxes above the State Act 1 Index.

Upon completion of all items outlined above, a preliminary budget is generated and reviewed by the Superintendent and administration. After these meetings, adjustments are made if necessary and the preliminary budget is finalized and presented to the Board of School Directors and the public in April. After discussion of the budget in public, any further changes deemed necessary are made and the final budget is considered by the Board of School Directors in June. The budget process will be accelerated by four months in years that the District will need to seek Act 1 exceptions or voter referendum approval for any millage increase that exceeds the State Act 1 Index.

The administration has established procedures to monitor the use of budgeted funds after the board has approved the annual operating budget and authorized the expenditure of funds. The procedures have been categorized as budget responsibility, expenditure controls, budgetary transfers and management reporting. Initially, each administrator is assigned responsibility for spending within his/her area. Expenditure controls are established through a requisition/purchase order system within the School District's financial accounting software. Budgetary transfers are required by each administrator to ensure program budgets are not overspent. Finally, administrators are provided with monthly budget reports from the Business Office to monitor the progress of spending in their area of responsibility.

Internal Controls

Internal controls within the School District are developed by the Business Office administrators to provide reasonable assurance that assets are safeguarded against loss from unauthorized use or disposition, as well as to provide reliability of the financial records. These controls and procedures are documented in the Business Office Procedures Manual. Additionally, modifications to internal controls evolve from a variety of other sources, including other School District administrators, the audit professionals and the Board of School Directors. The goal of the School District's internal accounting control system is to adequately safeguard assets and to provide reasonable assurance as to the proper recording and tracking of financial activity. The School District's financial data are subject to a comprehensive audit at the end of each fiscal year by a firm of independent certified public accountants in accordance with U.S. generally accepted governmental auditing standards.

PROFILE OF THE GOVERNMENT (Continued)

Internal Controls (Continued)

Additionally, the Auditor General of the Commonwealth of Pennsylvania audits school district records as they relate to State subsidy payments and the State laws. Audits are generally completed in two-year increments within two years of the end of a given fiscal year. The School District has received commendable audit reports for the previous five audits – covering ten fiscal years (2002-03 to 2011-12). The School District has received commendable reports from the Auditor General for the previous five audits and one limited procedure engagement – covering thirteen fiscal years (2002-03 to 2014-15). These audits and engagements resulted in no recommendations, findings or questioned costs.

LOCAL ECONOMY

The School District is coterminous with the Township of Hampton, a suburban community located north of the City of Pittsburgh. The School District encompasses 16 square miles and is made up mainly of residential housing, along with light industrial and retail enterprises. Enrollment has decreased from 3,123 students in the 2006-07 year to 2,909 students in the 2015-16 year (a 6.8% decrease.) The decrease in enrollment is similar to other suburban school districts in the area and less than the countywide trend.

Hampton's current 2016-17 real estate tax millage rate of 18.39 mills is 14.94% lower than the Allegheny County average and only eight Districts in the County have a lower tax rate; while thirty-three have higher tax rates. When preparing the annual budget for the District, the School Board and Administration carefully consider the burden imposed on the School District taxpayers along with the expectations of the District's parents and students to continue providing a high quality education.

LONG TERM FINANCIAL PLANNING

Pennsylvania School Employees' Retirement System Contributions

Actuarial projections for employer contributions to the Pennsylvania School Employees' Retirement System predict sustained high employer contribution rates. Details of the impact on the School District are included in the Management Discussion & Analysis Section under "Future Economic Considerations."

State School District Funding - Act 1 of Special Session 2006(The Taxpayer Relief Act) as amended by Act 25 of 2011

Under the Taxpayer Relief Act, through Act 1 of 2006 and Act 25 of 2011, Pennsylvania School Districts became subject to a change in their taxing structure. Details of Act 1 and Act 25 are included in the "Management Discussion & Analysis" Section under "Future Economic Considerations."

Fund Balance

The School District ended the 2015-16 fiscal year with an unassigned general fund balance of \$4,636,428. The unassigned fund balance is 9.46% of the 2016-17 general fund budget, which exceeds the 8% maximum amount of unassigned fund balance permitted by the Pennsylvania Department of Education for a district requesting to raise its tax rate. The District will be required to utilize the excess portion of its fund balance to fund future capital projects or to balance the budget before it can consider raising the rate of any taxes in future fiscal years.

DISTRICT AWARDS AND ACCOMPLISHMENTS

- Hampton High School was named as a "National Blue Ribbon School" for 2016. Hampton High School was one of only 328 schools nationwide to receive this prestigious award. National Blue Ribbon Schools. Schools are selected for the honor based on their overall academic excellence or their progress in closing achievement gaps among student subgroups. According to the U.S. Department of Education, the award is confirmation of the hard work of students, educators, families and communities in creating safe and welcoming schools, where students master challenging content.
- The Pittsburgh Business Times ranked the Hampton Township School District 3rd in Western Pennsylvania (of 105 school districts ranked) and 7th in Pennsylvania (of 600 schools ranked) in its "2016 Guide to Western Pennsylvania's School Districts." The Pittsburgh Business Times rankings are based on three years of state standardized test scores.
- The Hampton Township School District was ranked as the 97th best school District in America by the online ranking and review resource *Niche.com* for 2016. *Niche.com* ranked school districts based on key statistics such as state assessment test scores, college readiness, graduation rates, SAT/ACT scores, teacher quality and student/parent reviews.
- All three elementary schools were named among the best in Pennsylvania by *Niche.com*. The rankings, which were released in February 2016 provide a comprehensive assessment of the overall experience for students and parents at the public elementary schools. Placement on the list takes into account the quality and strength of academic programming, quality of the teaching staff, student culture and diversity and the overall quality of the school district. Poff Elementary ranked number 43, Wyland Elementary ranked number 48 and Central Elementary ranked number 74.
- In April, 2015, the online magazine, *NerdWallet* ranked Hampton Township School District as the 4th "Best School District for your Buck" in Pennsylvania. *Nerdwallet stated the following:* "Boasting "a tradition of excellence," it's no surprise to see Hampton Township School District high on our list. The district's graduation rate of 98.8% is the highest in our top 20, and 86.9% of those graduates go on to higher education. The high school offers over 16 AP courses, and requires students to perform at least 40 hours of community service before graduation. The district, where median home values are \$204,700, has been consistently recognized over the past decade for its academic accomplishments."
- Hampton High School was named a 2015 Distinguished Title I School by the Pennsylvania Department of Education, Division of Federal Programs. This distinguished designation was awarded to the top 5 percent of Title I schools in Pennsylvania and is based on a mixture of PSSA scores, Keystone scores, attendance and graduation rates, improvement on standardized testing and other academic measures.
- The Hampton High School Musical "Monty Python's Spamalot" received three Gene Kelly Awards and had five nominations. The nominees and award winners were recognized at an awards show on May 28, 2016 at the Benedum Center in Pittsburgh.
- In August 2016, Standard & Poor's assigned the Hampton Township School District a credit rating of "AA-." This rating reaffirmed the Standard & Poor's upgrade of the District's credit rating from an "A" rating to an "AA-" rating in April 2009.

FINANCIAL REPORTING

The Government Finance Officers Association (GFOA) awards a Certificate of Achievement to school districts that prepare a Comprehensive Annual Financial Report (CAFR) that meets the rigorous standards of the GFOA. In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized CAFR whose contents conform to each of the program's standards. Such reports must satisfy both Generally Accepted Accounting Principals (GAAP) and applicable legal requirements. The School District received the award for its 2014-15 CAFR, which is included in this report. We believe our 2015-16 CAFR meets the Certificate of Achievement Program requirements and are submitting it to the GFOA to determine its eligibility for certification.

ACKNOWLEDGEMENTS

The preparation of the Comprehensive Annual Financial Report was made possible by the efforts Tammi Kinzel, Manager of Accounting and the entire Business Office staff.

Sincerely,

Dr. Michael Loughead Superintendent of Schools Jeffrey Kline

Independent Auditor's Report

Members of the Board Hampton Township School District Allison Park, Pennsylvania

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Hampton Township School District, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise Hampton Township School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

Members of the Board Hampton Township School District Page 2

Report on the Financial Statements (Cont'd)

Auditor's Responsibility (Cont'd)

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Hampton Township School District, as of June 30, 2016, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, post-employment benefit information and pension information as shown in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Hampton Township School District's basic financial statements. The introductory section, combining and individual fund financial statements, and statistical section, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and also is not a required part of the basic financial statements.

Members of the Board Hampton Township School District Page 3

Report on the Financial Statements (Cont'd)

Other Matters (Cont'd)

Other Information (Cont'd)

The combining and individual fund financial statements and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 20, 2016, on our consideration of Hampton Township School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Hampton Township School District's internal control over financial reporting and compliance.

HOSACK, SPECHT, MUETZEL & WOOD LLP

Hosach, Speat, Muzzel & Word LLP

Pittsburgh, Pennsylvania December 20, 2016

The discussion and analysis of Hampton Township School District's financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2016. The intent of this discussion and analysis is to look at the School District's financial performance as a whole. Readers should also review the transmittal letter, notes to the basic financial statements to enhance their understanding of the School District's financial performance.

The Management Discussion and Analysis (MD&A) is an element of the reporting model adopted by the Government Accounting Standards Board (GASB) in their Statement No. 34 Basic Financial Statements - and Management's Discussion and Analysis - for the State and Local Governments issued June 1999. Certain comparative information between the current year and the prior year is required to be presented in this MD&A.

Financial Highlights

General Fund

Preparation and Approval of the 2015/2016 General Fund Budget

The 2015/2016 general fund budget was approved by the Hampton Township School District Board of Directors in June 2015 with revenues of \$46,154,183 and expenditures of \$47,496,987. The School District balanced the shortfall of \$1,342,804 with the utilization of \$722,000 of its committed fund balance for the Public School Employees' Retirement System (PSERS) Rate Stabilization Fund, the use of \$200,000 of its unassigned fund balance and a 0.27 mill tax increase. The real estate millage rate increased from 17.85 mills to 18.12 mills.

The final expenditure budget included an increase in expenditures of \$1,858,086 or 4.07% from the 2014/2015 budget. The primary components of the budget increase are as follows:

- PSERS Contributions were projected to increase by \$1,120,000 due to the employer contribution rate increase from 21.40% to 25.84%;
- The total salary increases were projected to increase by \$736,385, or 3.20%.

2015/2016 Actual Financial Results

Actual 2015/2016 general fund revenues were \$47,034,753 and actual expenditures were \$47,987,878, resulting in a deficit of \$953,125 and an ending fund balance at June 30, 2016 of \$9,442,677 of which \$4,636,428 was unassigned. The deficit of \$953,125 was \$31,125 higher than the budgeted deficit of \$922,000. Below is a summary of individual items that significantly impacted the School District's financial results as compared to the budget during 2015/2016.

Financial Highlights (Cont'd)

General Fund (Cont'd)

Revenues

School District revenues exceeded the amount budgeted by \$459,766 for a favorable variance of 0.98%. The material line-item variances from budget to actual are outlined below.

- Current real estate tax collections exceeded the budgeted amount by \$256,277. The favorable percentage variance is 0.92% and is due to a slightly higher net taxable assessed value for the 2015/2016 year than projected. The budget was constructed with a projected net taxable assessed value of \$1.645 billion and the actual net taxable assessed value was \$1.668 billion accounting for 1.4% of the increase. This increase was offset by a slightly lower than expected collection rate. The increase in assessed value was due to two factors: the results of pending assessment appeals from the 2013 Allegheny County reassessment and new construction.
- Delinquent tax collections (real estate and earned income tax) exceeded the budgeted amount by \$212,909, or 21.29%. The 5-year history of delinquent tax collections reveals collections as low as \$830,691 and as high as \$1,434,957 with an average of approximately \$1,000,000. The budget was based on the 5-year average of collections as the timing of delinquent collections is unpredictable.

Expenditures

School District expenditures (including other financing uses) exceeded budget by \$490,891 for an unfavorable variance of 1.03%. The significant expenditure budget variances are outlined below.

- The School District's capital projects fund transfer exceeded the budget by \$1,000,000. The School Board approved the \$1,000,000 transfer to fund necessary capital projects. The outlay of the funds was for the concrete replacement project at the Middle School and for School District-wide technology upgrades.
- The School District's instructional salaries exceeded budget by \$326,417. This is an unfavorable variance of 2.27%. The majority of the unfavorable salary budget variance was due to unanticipated severance payments. The School District offered an early retirement incentive to teachers who chose to retire at the end of the 2015/2016 year. Ten teachers retired and received a total retirement incentive of \$150,000 (\$15,000 each). Additional severance payments of \$169,000 total for unused sick days were made for the ten teachers and two administrators. The early retirement incentive payments were not included in the 2015/2016 budget and only a small amount of the unused sick day severance was included.
- The School District's purchased services for contracted transportation was under budget by \$152,477, or 6.9%. The School District reduced its contracted bus routes by (2) vehicles in the 2015/2016 year as a result of bus consolidations and shared routes.

Financial Highlights (Cont'd)

General Fund (Cont'd)

Expenditures (Cont'd)

• The School District's operations & maintenance supplies were under budget by \$136,826 which represents a positive variance of 14.44%. The School District had significant energy savings due to lower energy costs. due to a milder winter and renegotiated natural gas and electricity rates through cooperative purchasing.

Using the Annual Financial Report

The audit report consists of an introductory section and a financial section that provide additional information regarding the School District and a single audit section which is issued to comply with federal guidelines as required in the Uniform Grant Guidance. Within this financial section are the management's discussion and analysis (this section) and a series of financial statements and notes to those statements. These statements are organized so that the reader can understand Hampton Township School District as an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The first two statements are government-wide financial statements - the statement of net position and the statement of activities. These provide both long-term and short-term information about the School District's overall financial status.

The remaining statements are fund financial statements that focus on individual parts of the School District's operations in more detail than the government-wide statements. The governmental funds statements tell how general School District services were financed in the short term as well as what remains for future spending. Proprietary fund statements offer short-term and long-term financial information about the activities that the School District operates like a business. For this School District, this is our food service fund. Fiduciary fund statements provide information about financial relationships where the School District acts solely as a trustee or agent for the benefit of others, to whom the resources in question belong.

The financial statements also include notes to explain some of the information in the financial statements and provide more detailed data.

Using the Annual Financial Report (Cont'd)

Figure A-1 shows how the required parts of the financial section are arranged and relate to one another:

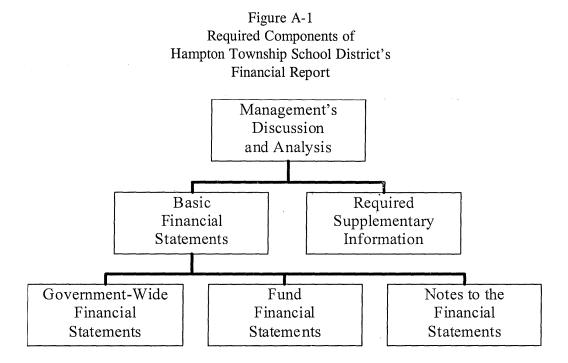

Figure A-2 summarizes the major features of the School District's financial statements, including the portion of the School District they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis explains the structure and contents of each of the statements.

Using the Annual Financial Report (Cont'd)

Major Features of Hampton Township School District's
Government-Wide and Fund Financial Statements

	Government-Wide	Fund Statements			
<u></u>	Statements	Governmental Funds	Proprietary Funds	Fiduciary Funds	
Scope	Entire School District (except fiduciary funds)	The activities of the School District that are not proprietary or fiduciary, such as education, administration and community services	Activities the School District operates similar to private business - food services	Instances in which the School District is the trustee or agent to some- one else's resources	
Required financial statements	Statement of net position; statement of activities	Balance sheet; statement of revenues, expendi- tures, and changes in fund balance	Statement of net position; statement of revenues, expenses and changes in net position; statement of cash flows	Statement of fiduciary net position; statement of changes in fiduciary net position	
Accounting basis and measurement focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus	Accrual accounting and economic resources focus	
Type of asset/liability information	All assets and liabilities, both financial and capi- tal, and short-term and long-term	Only assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets included	All assets and liabilities, both financial and capi- tal, and short-term and long-term	All assets and liabilities, both short-term and long-term	
Type of in-flow/outflow information	All revenues and expenses during the year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and payment is due during the year or soon thereafter	All revenues and expenses during the year, regardless of when cash is received or paid	All revenues and expenses during the year, regardless of when cash is received or paid	

Overview of Financial Statements

Government-Wide Statements

The government-wide statements report information about the School District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the Government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

Overview of Financial Statements (Cont'd)

Government-Wide Statements (Cont'd)

The two government-wide statements report the School District's net position and how it has changed. Net position, the difference between the School District's assets and liabilities, is only one way to measure the School District's financial health or position.

Over time, increases or decreases in the School District's net position are an indication of whether its financial health is improving or deteriorating, respectively.

To assess the overall health of the School District, you need to consider additional non-financial factors, such as changes in the School District's property tax base and the performance of the students.

The government-wide financial statements of the School District are divided into two categories:

- Governmental activities All of the School District's basic services are included here, such as instruction, administration and community services. Property taxes and state and federal subsidies and grants finance most of these activities.
- Business-type activities The School District operates a food service operation and charges fees to staff, students and visitors to help it cover the costs of the food service operation.

Fund Financial Statements

The School District's fund financial statements provide detailed information about the most significant funds - not the School District as a whole. Some funds are required by state law and bond requirements.

Governmental funds - Most of the School District's activities are reported in governmental funds, which focus on the determination of financial position and change in financial position, not on income determination. They are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School District's operations and the services it provides. Governmental fund information helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the School District's programs. The relationship between governmental activities (reported in the statement of net position and the statement of activities) and governmental funds is reconciled in the financial statements.

Proprietary funds - These funds are used to account for the School District activities that are similar to business operations in the private sector; or where the reporting is on determining net income, financial position, changes in financial position, and a significant portion of funding through user charges. When the School District charges customers for services it provides - whether to outside customers or to other units in the School District

Overview of Financial Statements (Cont'd)

Fund Financial Statements (Cont'd)

- these services are generally reported in proprietary funds. The food service fund is the School District's proprietary fund and is the same as the business-type activities we report in the government-wide statements, but provide more detail and additional information, such as cash flows.

Fiduciary funds - The School District is the trustee, or fiduciary, for some scholarship funds. All of the School District's fiduciary activities are reported in separate statements of fiduciary net position on Exhibit 10. We exclude these activities from the School District's other financial statement because the School District cannot use these assets to finance its operations.

Financial Analysis of the School District as a Whole

The School District's total net position was (\$65,867,448) at June 30, 2016 and (\$64,527,489) at June 30, 2015.

Table A-1 Years Ended June 30, 2016 and 2015 Net Position

Table A-1 (Cont'd) Years Ended June 30, 2016 and 2015 Net Position

		2016		2015		
	Governmental Activities	Business- I Type Activities	Totals	Governmental Activities	Business- Type Activities	Totals
Net Position Net Investment in						
Capital Assets	\$ (1,965)	\$ 147,803	\$ 145,838	\$ (1,690,470)	\$ 135,440	\$ (1,555,030)
Restricted	21,912	-	21,912	21,885	-	21,885
Unrestricted	(65,802,694)	(232,504)	(66,035,198)	(62,731,209)	<u>(263,135</u>)	(62,994,344)
Total Net Position	\$ <u>(65,782,747</u>)	\$ <u>(84,701</u>)	\$ <u>(65,867,448</u>)	\$ <u>(64,399,794</u>)	\$ <u>(127,695</u>)	\$ <u>(64,527,489</u>)

Most of the School District's net position is invested in capital assets (buildings, land, and equipment). The remaining unrestricted net position is combined of restricted and unrestricted amounts. The difference between total net position and the general fund balance exists due to the current depreciated value of the School District's buildings and equipment being less than the sum of future debt payments and that land is valued at historical costs (under generally accepted accounting principles), rather than current or appraised value. The School District's land was acquired at little or no cost many years ago; however, it has significant market value.

The decrease in net position of \$1,339,959 from (\$64,527,489) to (\$65,367,448) is primarily the result of the following factors:

- The pension liability (including deferred outflows, deferred inflows and net pension liability) increased by \$955,686;
- The fair market value of the 2007 variable rate debt decreased by \$519,766 during the 2015/2016 fiscal year.

The results of the year's operations as a whole are reported in the statement of activities. All expenses are reported in the first column. Specific charges, grants, revenues and subsidies that directly relate to specific expense categories are represented to determine the final amount of the School District's activities that are supported by other general revenues. The two largest general revenues are the local taxes assessed to School District taxpayers and the basic education subsidy provided by the state of Pennsylvania.

Table A-2 utilizes the information from that statement, rearranges it slightly to present revenues for the year.

Summary of Significant Year-to-Year Variances

Governmental Activities

Total governmental revenues increased by \$755,846 from \$45,739,129 to \$46,494,975. This increase was primarily due to the following:

Financial Analysis of the School District as a Whole (Cont'd)

Summary of Significant Year-to-Year Variances (Cont'd)

Governmental Activities (Cont'd)

- Revenues from property taxes and other taxes increased by \$739,762. This is due to the property tax increase of 0.27 mills, the increase in taxable assessed value and the continued increase in earned income tax receipts.
- Operating grants and contributions increased by \$699,749. This increase is primarily due to the increase in PSERS subsidy from the State. The PSERS subsidy increased by \$567,906 from \$2,350,367 to \$2,918,273 as the contribution rate increased from 21.40% to 25.84%.

Total governmental expenses increased by \$1,781,762 from \$46,096,166 to \$47,877,928. The primary reason for the increase was in the general fund as expenditures increased by \$1,936,730.

Business-Type Activities

The food service fund had an increase in net position of \$42,994 in the 2015/2016 fiscal year due to the operating surplus achieved in the fund.

The following tables present the expenses of both the governmental activities and the business-type activities of the School District.

Table A-3 analyzes the School District's largest functions: instructional programs; instructional student support; administrative; operation and maintenance of plant services; pupil transportation; student activities; food service; as well as each program's net cost (total cost less revenues generated by the activities). This table also shows the net costs offset by the other unrestricted grants, subsidies and contributions to show the remaining financial needs supported by local taxes and other miscellaneous revenues.

Financial Analysis of the School District as a Whole (Cont'd)

Table A-3
Years Ended June 30, 2016 and 2015
Governmental Activities

		2016	20	15
Functions/Programs	Total Cost (Expense) of Services	Net Cost (Expense) of Services	Total Cost (Expense) of Services	Net Cost (Expense) of Services
Instruction Instructional Student Support Administrative and Fin. Support	\$28,959,979 3,085,366	\$24,117,738 2,561,637	\$27,451,751 2,843,331	\$23,146,854 2,386,599
Svcs. Oper. and Maintenance of Plant	4,676,518	4,280,970	4,551,271	4,216,063
Svcs. Pupil Transportation	5,096,514 2,078,458	4,767,487 1,295,362	5,119,529 2,138,090	4,846,701 1,312,343

Interest on Long-Term Debt	2,616,593	1,961,870	2,694,123	1,976,301
Total Governmental Activities	\$ <u>47,877,928</u>	40,166,261	\$ <u>46,096,166</u>	39,021,149
Less: Unrestricted Grants, Subsidies		(5,734,511)		(5,615,286)
Total Needs from Local Taxes and Other Revenues		\$ <u>34,431,750</u>		\$ <u>33,405,863</u>

The total needs from local taxes and other revenues increased by \$1,025,887 from \$33,405,863 to \$34,431,750. The primary reason for the increase is the increase in the general fund expenditure budget. The increased need in local taxes was primarily funded by a 0.27 mill increase in the real estate tax rate.

Table A-4 reflects the activities of the food service program, the only business-type activity of the School District.

Financial Analysis of the School District as a Whole (Cont'd)

Table A-4
Years Ended June 30, 2016 and 2015
Business-Type Activities

	2016		2015	
Functions/Programs	Total Cost (Expense) of Services	Net Cost (Expense) of Services	Total Cost (Expense) of Services	Net Cost (Expense) of Services
Food Service	\$ <u>1,181,321</u>	\$ <u>(42,994</u>)	\$ <u>1,190,362</u>	\$ <u>(22,125)</u>

The food service fund net profit increased by \$20,869 from \$22,125 to \$42,994. The primary reason for the increase in net profit is a reduction in salaries and benefit costs. The number of School District-employed staff members was reduced from twelve to nine through retirements. The collective bargaining agreement between the School District and Cafeteria Association permits the School District to reduce staff through attrition and retirements. The School District has achieved savings due to reduced health and PSERS benefits by utilizing cafeteria employees hired by the food service management company.

School District Funds

At June 30, 2016, the School District's governmental funds reported a combined fund balance of \$10,818,574 which is a decrease of \$1,379,313 from the July 1, 2015 combined fund balance of \$12,197,887. The general fund balance decreased by \$953,125 for the reasons outlined in the "Financial Highlights" section of the Management's Discussion and Analysis. The debt service fund balance increased by \$80,221 as the School District's 2007 variable rate debt payments were less than budgeted. The capital reserve fund balance (categorized in Nonmajor Funds) decreased by \$506,436. The decrease in the capital reserve fund balance is due to expenditures related to the School District's Captured Vestibule Project, Technology Infrastructure upgrades and the Wyland Elementary Roof Replacement project.

General Fund Budget

During the fiscal year, the Board of School Directors (The Board) authorizes revisions to the original budget to accommodate differences from the original budget to the actual expenditures of the School District. All adjustments are again confirmed at the time the annual audit is accepted, which is after the end of the fiscal year. A schedule detailing the School District's original and final budget amounts compared with amounts actually paid and received is provided in the financial statements.

Capital Assets and Debt Administration

Capital Assets

At June 30, 2016, the School District had \$52,788,362 invested in a range of capital assets, including land, buildings, furniture and equipment. This amount represents a net decrease (including additions, deletions and depreciation) of \$891,429, or 1.66% from the previous year. This decrease is attributable to depreciation expense of \$2,669,435 exceeding the new construction additions of \$892,454 and depreciable equipment additions of \$885,552. More detailed information about the School District's capital assets is included in Note 5 to the financial statements.

Table A-5
Governmental Activities
Capital Assets - Net of Depreciation

	2016	2015
Land	\$ 1,081,390	\$ 1,081,390

Furniture and Equipment	2,101,615	1,798,569
Construction in Progress	-	269,147

Debt Administration

As of July 1, 2015, the School District's total outstanding debt principal (for bonds and notes) was \$59,710,191. During the 2015/2016 fiscal year, there was \$267,675 in accretion of the Series of 1995 zero coupon bonds. The School District made payments toward the principal outstanding on the Series of 2006A and 2006B bonds, 2007 VRDBs, Series of 2008, 2009, 2011A and 2011B bonds in the total amount of \$2,550,000. The School District also made payments toward the principal of the 2008 general obligation note in the amount of \$75,381 for its share of the A. W. Beattie Career and Technical School general obligation note.

The fiscal year debt activity resulted in ending outstanding debt as of June 30, 2016 of \$57,352,485, a decrease of \$2,357,706, or 3.94%. A comprehensive analysis of the School District's long-term debt is included in the notes to the financial statements.

Table A-6
Outstanding Debt

General Obligation Bonds/Notes	As of 06/30/16	As of 06/30/15
Bonds - Series of 1995	\$ 3,945,513	\$ 3,677,838
Bonds - Series of 2006A	8,495,000	8,670,000

Capital Assets and Debt Administration (Cont'd)

Bonds - Series of 2009	-	895,000
Bonds - Series of 2011A	9,105,000	9,535,000
Bonds - Series of 2011B	760,000	765,000
Notes - Series of 2008	1,321,972	1,397,353

Other long-term obligations include accrued vacation pay and sick leave for specific employees of the School District, termination benefits and capital lease obligations. More detailed information about the School District's long-term liabilities is included in Notes 8 -10 to the financial statements.

Economic Factors and the 2016/2017 Budget and Tax Rates

The general fund budget for the 2016/2017 year was adopted in June 2016. The 2016/2017 expenditure budget of \$48,963,301 was an increase of \$1,466,314, or 3.09% from the 2015/2016 final budget. Approximately 69% of the increase, or \$1,012,000, was due to the increase in School District contributions to PSERS. The PSERS employer contribution rate increased from 25.84% of payroll in 2015/2016 to 30.03% of payroll in 2016/2017. The School District's revenues were projected at \$47,797,900 resulting in a deficit of \$1,165,401. The School District was able to offset its budget deficit through the utilization of \$747,000 of its PSERS Rate Stabilization Fund (Year 6) and a minor real estate tax rate increase of 0.27 mills from 18.12 mills to 18.39 mills.

The comparison of budgeted revenues and expenditures categories are as follows:

Table A-7

	Budgeted	Budgeted Revenues	
	2016/2017	2015/2016	
Local	71.4%	71.5%	
State	27.9%	27.8%	
Federal/Other	0.7%	0.7%

2020/2021	35.95%	4,740,000	190,000
2021/2022	36.40%	4,950,000	210,000

Future School District Economic Considerations (Cont'd)

Public School Employees' Retirement System (PSERS) Contributions (Cont'd)

Although half of the School District's contributions are reimbursed by the state, the PSERS rate increases have a tremendous financial impact on the School District. The increase in contribution rate from 5.64% in 2010/2011 to 30.03% in 2016/2017 has added \$2,850,000 to the School District's budget (net of state reimbursement). The projected future rate increases and sustained high rates will add another \$1,495,000 (net of state reimbursement) to the School District's budget by the 2021/2022 fiscal year.

The School District was proactive in preparing for the higher PSERS contribution rates. The School District established a PSERS Rate Stabilization Fund during the 2009/2010 fiscal year. As of June 30, 2016, the fund has \$4.468 million to allocate to future PSERS costs. The School District first allocated PSERS Rate Stabilization Funds to assist in balancing the 2011/2012 budget and the current plan will continue to allocate funds through the 2025/2026 fiscal year. The annual allocations approved by the School Board are as follows:

2011/2012	\$ 68,000	2019/2020	\$576,000
2012/2013	151,000	2020/2021	505,000
2013/2014	418,000	2021/2022	430,000
2014/2015	573,000	2022/2023	352,000
2015/2016	722,000	2023/2024	265,000
2016/2017	747,000	2024/2025	172,000
2017/2018	702,000	2025/2026	70,000
2018/2019	649,000		

The PSERS Rate Stabilization Fund has provided the School District with a tremendous resource to balance its annual budgets within the Act 1 Index.

Allegheny County Real Estate Tax Assessments

Allegheny County completed a county-wide real estate reassessment in 2013. The updated assessments were first used by the School District for the 2013/2014 budget year. The School District was legally required to reduce its 2013/2014 real estate tax rate to create revenue neutrality for the change in assessed value. The outstanding appeals existing at the time of adoption of the 2013/2014 budget required the School District to calculate an allowance for outstanding appeals in order to adopt an equitable tax rate. The delay in settlement of many of the appeals caused the School District to continue & modify this method for the 2014/2015 and 2015/2016 budgets as well. The previous four budgets accounted for the 2013 reassessment as follows:

2013/2014 Budget - Utilized a projection of settlement values for all outstanding appeals

2014/2015 Budget - Utilized a projection of settlement values for all outstanding appeals

2015/2016 Budget - Utilized a projection of settlement values for only the significant dollar amount outstanding appeals.

2016/2017 Budget - Included no allowance for outstanding appeals.

Hampton Township School District Management's Discussion and Analysis June 30, 2016

Future School District Economic Considerations (Cont'd)

Allegheny County Real Estate Tax Assessments (Cont'd)

The history of the School District's gross real estate taxable assessed value under the 2013 base year system per is as follows:

\$1,699,505,200
1,677,308,260
1,662,351,045
1,658,125,665
1,655,929,545
1,660,116,373
1,659,933,573
1,662,560,623
1,671,119,843

Act 1 of Special Session 2006 (the Taxpayer Relief Act) as amended by Act 25 of 2011

Under the Taxpayer Relief Act (Act 1), signed by the Governor of Pennsylvania on June 27, 2006, Pennsylvania school districts became subject to a change in their taxing structure. Act 1 expanded Pennsylvania's property tax and rent rebate programs for senior citizens and provided for a local referendum to consider increases to the local earned income tax or a change to a local personal income tax in order to fund dollar for dollar decreases in local property taxes.

The voters of Hampton Township rejected the proposed tax shift from the current earned income tax at 0.5% to a personal income tax at 1.2% in May 2007. The School District's tax structure will remain unchanged unless the tax shift is proposed for a future referendum.

However, the School District is still subject to a back-end referendum for future millage increases. Without voter approval by referendum, school districts may not increase the rate of any tax by more than the annual state index, nor may they increase or levy any new taxes. The state index is the average of the percentage increase in the state-wide average weekly wage (as reported by the Pennsylvania Department of Labor and Industry) and the national employment cost index (as reported by the Federal Bureau of Labor Statistics) for elementary and secondary schools. The back-end referendum requirement originally had ten exceptions under Act 1 of 2006, but was amended to include only three exceptions by Act 25 of 2011. The three remaining referendum exceptions are outlined below:

- 1. To pay interest and principal on debt incurred prior to the effective date of Act 1.
- 2. To pay for special education cost increases above the index (net of state special education payments).

Hampton Township School District Management's Discussion and Analysis June 30, 2016

Future School District Economic Considerations (Cont'd)

Act 1 of Special Session 2006 (the Taxpayer Relief Act) as amended by Act 25 of 2011 (Cont'd)

3. To make employer contributions to PSERS when the increase in the PSERS employer contribution rate exceeds the index, as determined by the Department of Education using the School District's total compensation for the year the exception is being sought or the School District's total compensation from the 2011/2012 year, whichever is less. This change to the PSERS exception will reduce the revenue available from the exception as salaries increase over a period of years.

The School District has not applied for nor utilized any of the Act 1 exceptions in nine of the ten budget years since the advent of Act 1. The School District did apply for and receive PA Department of Education approval for the use of the PSERS exception for the 2011/2012 budget year, but only used a portion of the available exception to balance the 2011/2012 budget with a 0.47 mill real estate tax increase, or 2.25%.

The School District Administration and School Board prepare the budget each year in order to balance the needs of the students with the resources of the community. The School District is proud that its 2016/2017 real estate tax rate of 18.37 mills is 3.23 mills, or 14.94% lower than the average school district in Allegheny County. There are only eight Allegheny County school districts with a lower 2016/2017 millage rate than Hampton Township School District and thirty-three with a higher millage rate.

Contacting the School District Financial Management

The School District's financial report is designed to provide its citizens, taxpayers, parents, students, investors, and creditors with a general overview of the School District's finances and to show the Board's accountability for the funds it receives. If you have questions about this report or wish to request additional financial information, please contact Mr. Jeffrey Kline, Director of Administrative Services of Hampton Township School District, 4591 School Road, Allison Park, PA 15101, 412-492-6308 or by email at kline@ht-sd.org.

Hampton Township School District Reconciliation of the Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances to the Statement of Activities Year Ended June 30, 2016

Total Net Change in Fund Balances - Governmental Funds

\$(1,379,313)

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation exceeds capital outlays in the period.

Depreciation Expense	\$(2,669,435)	
Capital Outlays	1,778,006	(891,429)

Because some property taxes will not be collected for several months after the School District's fiscal year ends, they are not considered as "available" revenues in the governmental funds. Unavailable revenues increased by this amount this year.

33,514

Repayment of bond, note and capital lease principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.

2,653,758

In the statement of activities, certain operating expenses - compensated absences (sick pay and vacations), termination benefits and other post-employment benefits (OPEB) - are measured by the amounts earned during the year. In governmental funds, however, expenditures for the items are measured by the amount of financial resources used (essentially, the amounts actually paid).

Compensated Absences	63,480	
Termination Benefits	38,278	
Other Post-Employment Benefits	(63,707)	38,051

Interest on long-term debt in the statement of activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the statement of activities, however, interest expense is recognized as the interest accrues, regardless of when it is due.

Exhibit 6

Hampton Township School District Reconciliation of the Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances to the Statement of Activities Year Ended June 30, 2016

Net Change in Accrued Interest on the Bonds Accretion of Interest on the School District's Capital Appreciation Bonds	\$	3,735 (267,675)	\$	(263,940)
Governmental funds report changes in investment derivative instruments only when those instruments provide or use financial resources. However, in the statement of activities, changes in the fair value of investment derivative instruments are changes in economic resources and are reported in each period in which there is a change in the fair value of the investment. This is the amount of the change in the fair value of investment derivatives in the current period.				(519,766)
Bond discount and premium are reported in the statement of revenues and expenditures of governmental funds as expenditures but are capitalized and amortized over the life of the bonds in the statement of activities.				
Amortization of Joint Venture Payment		(88,509)		
Amortization of Discount, Premium and Deferred Loss on Refunding	_	29,934		(58,575)
Governmental funds report School District pension contributions as expenditures. However, in the statement of activities, the cost of pension benefits earned is reported as pension expense.

Note 1 - Summary of Significant Accounting Policies

Hampton Township School District, located in Allegheny County, Pennsylvania, provides public education, kindergarten through twelfth grade, to the residents of the Township of Hampton. The School District operates under a nine-person elected Board of Directors.

A. Basic Financial Statements - Government-Wide Statements

The School District's basic financial statements include both government-wide (reporting the School District as a whole) and fund financial statements (reporting the School District's major funds). The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of Hampton Township School District. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Both the government-wide and fund financial statements categorize primary activities as either governmental or business-type. In the government-wide statement of net position, governmental activities are represented on a consolidated basis by column.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function, and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payment-in-lieu of taxes and other charges between various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

B. Basic Financial Statements - Fund Financial Statements

Fund financial statements of the School District are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts that constitutes its assets, liabilities, fund equity, revenues and expenditures. Funds are organized into three categories: governmental; proprietary; and fiduciary.

The emphasis in fund financial statements is on the major funds in the governmental category. Nonmajor funds are summarized in a single column. The nonmajor funds are combined in a column in the fund financial statements.

Note 1 - Summary of Significant Accounting Policies (Cont'd)

B. Basic Financial Statements - Fund Financial Statements (Cont'd)

1. Governmental Funds

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and change in financial position (sources, uses, and balances of financial resources) rather than upon net income. The School District reports these major governmental funds and fund types:

The *general fund* is the School District's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *debt service fund* accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds.

The School District also reports as nonmajor governmental funds the following:

The *capital projects fund* accounts for financial resources to be used for the acquisition of construction of major capital facilities or equipment (other than those financed by proprietary funds).

Permanent funds are used to account for assets held by the School District pursuant to a trust agreement. The principle portion of this fund type must remain intact, but the earnings may be used to achieve the objectives of the fund. The Emily Scott Memorial and Spanos Memorial funds are considered permanent funds. The earnings are to be used for specific school programs.

The activities reported in these funds are reported as governmental activities in the government-wide financial statements.

2. Proprietary Funds

The focus of proprietary fund measurement is upon determination of operating income, changes in net position, financial position, and cash flows. The generally accepted accounting principles applicable are those similar to businesses in the private sector. The School District reports the following proprietary fund type:

Enterprise funds are required to be used to account for operations for which a fee is charged to external users for goods or services and the activity is financed with debt that is solely secured by a pledge of the net revenues. The activities reported in these funds are reported as business-type activities in the government-wide financial statements. The *food service fund* accounts for the revenues, food purchases and other costs and expenses for providing meals to students and/or faculty during the school year.

Note 1 - Summary of Significant Accounting Policies (Cont'd)

B. Basic Financial Statements - Fund Financial Statements (Cont'd)

3. Fiduciary Funds

Fiduciary funds are used to report assets held in a trustee or agency capacity for others and are therefore not available to support School District programs. The reporting focus is on net position and changes in net position. The School District's fiduciary funds are presented in the fiduciary fund financial statements by type (pension, private purpose, or agency). The School District reports the following fiduciary fund type:

The *agency fund* represents the School District's student activity funds. These funds account for student activities in the high school and middle school.

During the course of operations, the government has activity between funds for various purposes. Any residual balances outstanding at year-end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental and internal service funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column. Similarly, balances between the funds included in business-type activities (i.e. the enterprise funds) are eliminated so that only the net amount is included as internal balances in the business-type activities column.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements, these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as transfers in the business-type activities column.

C. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as *current financial resources* or *economic resources*. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements and proprietary fund financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Note 1 - Summary of Significant Accounting Policies (Cont'd)

C. Measurement Focus and Basis of Accounting (Cont'd)

The governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Property taxes, intergovernmental revenues, interest, rent and certain miscellaneous income associated with the current fiscal period are considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). All other revenue items are considered to be measureable and available only when cash is received by the government.

The proprietary fund is reported using the *economic resources measurement focus* and the *accrual basis of accounting*. The agency fund has no measurement focus but utilizes the *accrual basis of accounting* for reporting its assets and liabilities.

D. Joint Venture

The School District is one of nine-member school districts of the A. W. Beattie Career Center (Beattie). Beattie provides vocational-technical training and education to participating students of the member districts. Beattie is controlled and governed by the Joint Board, which is composed of all the school board members of all the member districts. Beattie's operations are the responsibility of the Joint Committee, which consists of two representatives from each participating school district. No member of the Jointure exercises specific control over the fiscal policies or operations of Beattie. The School District's share of annual operating and capital costs for Beattie fluctuates, based on the percentage of enrollment of each member district in the school. The School District's financial obligation to Beattie for the year ended June 30, 2016, was \$534,992 which was paid in the year ended June 30, 2016 to Beattie and reported in the School District's general fund. The School District has no equity interest in Beattie as of June 30, 2016. Complete financial statements for Beattie can be obtained from the administrative offices at 9600 Babcock Boulevard, Allison Park, PA 15101-2091.

Note 1 - Summary of Significant Accounting Policies (Cont'd)

E. Cash and Cash Equivalents

The School District's policy is to maintain cash balances in interest-bearing accounts such as money market or flex funds. The market values of the funds approximate cost. For purposes of the statement of cash flows, the proprietary fund considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

F. Investments

Investments are stated at fair value except that treasury and agency obligations that have a remaining maturity at the time of purchase of one year or less are shown at amortized cost. Fair value is based on quoted market prices. Funds are invested pursuant to the Public School Code of 1949 and investment policy guidelines established by the School District and approved by the Members of the Board. The School Code states that authorized types of investments shall be: United States Treasury Bills; short-term obligations of the United States Government or its agencies or instrumentalities; deposits in savings accounts, time deposits or share accounts of institutions insured by the FDIC; obligations of the United States or any of its agencies or instrumentalities backed by the full faith and credit of the United States and the Commonwealth of Pennsylvania.

G. Budgets

The School Board approves, prior to the beginning of each year, an annual budget on the modified accrual basis of accounting for the general fund. This is the only fund for which a budget is required and for which taxes may be levied. The general fund is the only fund that has an annual budget that has been legally adopted by the School Board. The Public School Code allows the School Board to authorize budget transfer amendments during the year, but only during the last nine months of the fiscal year. The School Board approved various budget transfers throughout the school year. There were no supplemental budgetary appropriations made during the year ended June 30, 2016.

The final budget data reflected in the financial statements includes the effect of approved budget transfer amendments and, for comparative purposes. The actual amounts have also been presented. The School District expenditures may not legally exceed the revised budget amounts by function. Function is defined as a program area such as instructional services. Management may amend the budget without seeking prior approval of the Board within a function. Amendments between functions require prior Board approval. Excess of expenditures over appropriations in the general fund is presented in the required supplementary information section.

Note 1 - Summary of Significant Accounting Policies (Cont'd)

H. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds". Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances".

I. Inventories

On government-wide financial statements, inventories are presented at the lower of cost or market on a first-in, first-out basis, and are expensed when used.

Inventories in governmental funds are stated at cost by the first-in, first-out method. The purchase method is used to account for inventories. Under the purchase method, inventories are recorded as expenditures when purchased; however, an estimated value of inventories is reported as an asset in the general fund, if considered material. There was no material inventory balance as of June 30, 2016.

The inventory of the food service fund consists of food supplies and government donated commodities which were valued at estimated fair market value, and purchased commodities and supplies, both valued at cost using the first-in, first-out (FIFO) method. Any unused commodities donated by the federal government at June 30, 2016 are reported as unearned revenue.

J. Prepaid Items

In both the government-wide and fund financial statements, certain payments to vendors reflect costs applicable to future accounting periods are recorded as prepaid items. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

K. Capital Assets

Capital assets, which include property, plant, equipment and land improvements are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the School District as assets with an initial, individual cost of more than \$1,500 and an estimated useful life in excess of one year. Management has elected to include certain homogeneous asset categories with individual assets less than \$1,500 as composite groups for financial reporting purposes. In addition, capital assets purchased with long-term debt may be capitalized regardless of the thresholds established. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are measured at acquisition value.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Note 1 - Summary of Significant Accounting Policies (Cont'd)

K. Capital Assets (Cont'd)

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

All reported capital assets are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings	50
Building Improvements	20-40
Land Improvements	20
Furniture	5-20
Vehicles	10
Equipment	5-10
Computers	5

Proprietary fund equipment purchases are capitalized in the proprietary fund at cost and depreciated on a straight-line basis over 12 years.

L. Long-Term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities or proprietary fund type statement of net position. Bond premiums and discount are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discount during the current period. The face amount of debt issued is reported as other financing sources while discount on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures.

M. Compensated Absences

The School District's policies regarding vacation and sick time is provided through various contracts. Employees can accumulate sick and/or vacation days which they are paid for upon retirement or termination of service. The amount the employee is compensated and the number of days varies based on their contract and their years of service. The liability for these compensated absences is recorded as long-term debt in the government-wide statements. The current portion of this debt is estimated based on historical trends. In the fund financial statements, governmental funds report only the amount of reimbursable unused vacation or sick

Note 1 - Summary of Significant Accounting Policies (Cont'd)

M. Compensated Absences (Cont'd)

leave to employees who have terminated their employment as of the end of the fiscal year, while the proprietary funds report the liability as it is incurred.

N. Defining Operating Revenues and Expenses

The School District's proprietary funds distinguish between operating and nonoperating revenues and expenses. Operating revenues and expenses of the School District's food service fund consist of charges for meals and the costs of providing those services, including depreciation and excluding interest cost. All other revenues and expenses are reported as nonoperating.

O. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. The School District has two items that qualify for reporting in this category. One is the deferred charge on refunding reported in the government-wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The other item in the government-wide statement of net position is related to the participation in the cost sharing defined benefit pension plan.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period and so will *not* be recognized as an inflow of resources (revenue) until that time. The School has one item reported in the government-wide statement of net position relating to the cost sharing defined benefit pension plan. The School District also has items, which arise only under the modified accrual basis of accounting, which qualifies for reporting in this category. Accordingly, the item, *unavailable revenue*, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from property taxes and grants. The unavailable grants are also reported in the government-wide statements. These amounts are deferred and recognized as inflows of resources in the period that the amount becomes available.

P. Equity Classifications

Government-Wide Statements

Equity is classified as net position and displayed in three components:

Note 1 - Summary of Significant Accounting Policies (Cont'd)

P. Equity Classifications (Cont'd)

Government-Wide Statements (Cont'd)

Net investment in capital assets - consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowing that are attributable to the acquisition, construction, or improvement of those assets.

Restricted net position - consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments, or (2) law through constitutional provisions or enabling legislation.

Unrestricted net position - all other net position that does not meet the definition of "restricted" or "net investment in capital assets".

Fund Statements - Fund Balance

In accordance with Governmental Accounting Standards Board Statement No. 54, fund balance reporting and governmental fund type definitions, the School District classifies governmental fund balances as follows:

Nonspendable - amounts that cannot be spent because they are either (1) not in a spendable form or (2) legally or contractually required to remain intact.

Restricted - the part of fund balance that is restricted to be spent for a specific purpose. The constraints on these amounts must be externally imposed by creditors, grantors, contributors or laws or regulations of other governments; or by enabling legislation. Enabling legislation authorizes the government to assess, levy, change or mandate payments and includes a legally enforceable requirement on the use of these funds.

Committed - the portion of fund balance that can only be used for specific purposes as a result of formal Board motion, which is approval of a motion by the majority of the School Board. Once the item is committed, it cannot be used for any other purpose unless changed by the same procedures used to initially commit the money.

Assigned - reflects the School District's intent to use the money for a specific purpose but is not considered restricted or committed. The assignment of fund balance can be assigned by management in the business office.

Unassigned - represents the part of spendable fund balance that has not been categorized as restricted, committed or assigned. The general fund is the only fund permitted to have a positive unassigned fund balance.

Note 1 - Summary of Significant Accounting Policies (Cont'd)

P. Equity Classifications (Cont'd)

Fund Statements - Fund Balance (Cont'd)

The School District's policy is that it considers restricted amounts to have been spent first when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available. It also considers committed amounts to be spent first when an expenditure is incurred for purposes for which both committed and unassigned fund balance could be used.

The purpose of the nonspendable, restricted, committed and assigned fund balance as of June 30, 2016, is as follows:

General Fund

- 1. Nonspendable fund balance of \$313,917 is for prepaid items.
- 2. The committed fund balance of \$4,468,000 is for employer retirement expenditures future increases.
- 3. The assigned fund balance of \$24,332 is for summer school programs.

Debt Service Fund

The committed fund balance of \$823,005 is for future debt payments on the School District's 2007 variable rate bonds.

Nonmajor Funds

- 1. The nonspendable fund balance of \$20,400 is the principal portion of the permanent fund original contribution which must remain intact.
- 2. The restricted fund balance of \$1,512 is the earnings in the permanent fund which must be used to achieve the objectives as outlined in the agreement between the School District and the contributor.
- 3. The committed fund balance of \$530,980 is for future capital projects.

Note 2 - Deposits and Investments

The deposit and investment policy of the School District adheres to state statutes and prudent business practice. There were no deposit or investment transactions during the year that were in violation of either the state statutes or the policy of the School District.

Note 2 - Deposits and Investments (Cont'd)

Custodial Credit Risk - Deposits

Custodial credit risk is the risk that in an event of a bank failure, the government's deposits may not be returned to it. The School District does not have a deposit policy for custodial credit risk. Deposits in excess of amounts covered by the Federal Deposit Insurance Corporation are collateralized in accordance with Act 72 of 1971 of the Pennsylvania State Legislature which requires the institution to pool collateral for all governments and have the collateral held by an approved custodian in the institution's name. As of June 30, 2016, \$3,535,159 of the School District's bank balance of \$4,765,159 was exposed to custodial credit risk as follows:

Uninsured and Collateral Held by Pledging
Bank's Agent not in the School District's Name

\$3,535,159

As of June 30, 2016, the School District had the following investments:

Investments	Fair Value
U. S. Treasuries PSDLAF	\$2,988,800 <u>6,823,729</u>
	\$9.812.529

Interest Rate Risk - The School District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

As of June 30, 2016, the School District had investments with the following maturities:

Investment Maturities (in Years)

Investment Type	Fair Value	Less than 1	1-5	6-10	More than 10
U. S. Treasuries Investment Derivative	\$ 2,988,800	\$2,988,800	\$ -	\$ -	\$ -
Instruments	(4,979,766)				(4,979,766)
Totals	\$ <u>(1,990,966</u>)	\$ <u>2,988,800</u>	\$ <u>-</u>	\$	\$ <u>(4,979,766</u>)

Note 2 - Deposits and Investments (Cont'd)

Custodial Credit Risk - Deposits (Cont'd)

The School District is invested in one interest rate swap with term as noted below:

Transaction Date 02/24/04

Effective Date 08/31/07
Maturity Date 09/01/27
Terms School District pays fixed from 5.0% to 5.02164% and receives 68% of one-month LIBOR

plus 30 basis points

Notional Amount \$18,350,000

Credit Risks - The Pennsylvania Public School Code authorizes the types of investments allowed. These are described in Note 1F. The School District has no investment policy that would further limit its investment choices. The School District's investments in Pennsylvania School District Liquid Asset Fund (PSDLAF) is rated AAAm by Standard & Poor's.

Credit Risk Relating to its Investment Derivative - The risk the School District will have is exposure to a swap counterparty under the swap. Credit risk is mitigated by several factors, including minimum credit rating criteria and ratings downgrade triggers in the swap documents. The credit ratings for the counterparties are as follows: Moody's - Aa2; Standard & Poor's - AA- and Fitch AA.

Concentration of Credit Risk - The School District places no limit on the amount it may invest in any one issue.

Investments

The Pennsylvania School District Liquid Asset Fund (PSDLAF) was established as a common law trust, organized under laws of the Commonwealth of Pennsylvania. Shares of the fund are offered to certain Pennsylvania school districts, intermediate units, area vocational-technical schools and municipalities. The purpose of the fund is to enable such governmental units to pool their available funds for investments authorized by Section 440.1 of the Pennsylvania Public School Code of 1949, as amended.

PSDLAF is governed by an elected board of trustees who are responsible for the overall management of the fund. The trustees are elected from the several classes of local governments participating in the fund. The fund is audited annually by independent auditors. The fund is a local government investment pool and is exempt from the requirement of SEC's Rule 2(a)7 of the Investment Company Act of 1940. The fund measures for financial reporting purposes its assets at amortized cost and maintains a stable net asset value of \$1 per share. Accordingly, the fair value of the position in PSDLAF is the same as the value of PSDLAF shares. There are no limitations or restrictions on withdrawals.

Note 2 - Deposits and Investments (Cont'd)

Fair Value of Investments

The School District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The School District has the following recurring fair value measurements as of June 30, 2016:

- U. S. Treasury securities of \$2,988,800 are valued using quoted market prices (Level 1 inputs);
- Investment derivative instruments of (\$4,979,766) are valued using significant observable inputs (Level 2 inputs).

Note 3 - Real Estate Taxes

The municipal tax collectors bill and collect real estate taxes on behalf of the School District based upon assessed values provided by the County. The School District's tax rate for all purposes in 2015/2016 was 18.12 mills (\$18.12 per \$1,000 assessed valuation). The tax calendar for real estate taxes levied for 2015/2016 is as follows:

Tax Levy Date	July 1, 2015
2% Discount Period	Through August 31, 2015
Face Payment Period	September 1 - October 31, 2015
10% Penalty Period	November 1 Until Liened
Lien Filing Date	July 1, 2016

The amounts shown as delinquent real estate taxes receivable have not been recorded as revenue on the fund statements. These taxes are, however, recorded as deferred revenue on the balance sheet until they are received. The amounts reported for this receivable are reported on the balance sheet in the amount of \$1,026,449 net of estimated uncollectible of \$114,050, along with other taxes receivable of \$737,409.

Note 4 - Due from Other Governments

Amounts due from other governments represent receivables for revenues earned by the School District. At June 30, 2016, the following amounts are due from other governmental units:

Note 4 - Due from Other Governments (Cont'd)

	Governmental Funds	Business-Type Activities	Totals
Federal (through the state)	\$ 33,442	\$30,834	\$ 64,276
State	2,083,577	4,545	2,088,122
Local	52,612		52,612
	\$ <u>2,169,631</u>	\$ <u>35,379</u>	\$ <u>2,205,010</u>

Note 5 - Capital Assets

Capital asset activity for the year ended June 30, 2016 was as follows:

	Balance 07/01/15	Additions	Transfers	Balance 06/30/16
Governmental Activities				
Capital Assets Not Being Depreciated				
Land	\$ 1,081,390	\$ -	\$ -	\$ 1,081,390

Student Activities	125,735
Total Depreciation Expense	\$ <u>2,669,435</u>
Business-Type Activities	
Food Service	\$ 23,020

Note 6 - Interfund Balances

Interfund balances at June 30, 2016, were:

Fund	Interfund Receivable	Interfund Payable
General Fund Debt Service Fund Enterprise Fund	\$ 4,772 823,004	\$823,004 -
Food Service Fund	-	4,772
	\$ <u>827,776</u>	\$ <u>827,776</u>

Balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made. All the balances above are expected to be collected in the subsequent year.

Note 7 - Interfund Transfers

For the year ended June 30, 2016, interfund transfers consisted of the following:

	<u>Transfer From</u> General Fund
Transfer To Nonmajor Funds	1 und
Capital Projects Fund	\$1,122,235
Debt Service Fund	5,010,000
	\$6,132,235

The general fund annually transfers monies to the debt service funds to pay the principal and interest due on the outstanding general obligation bonds of the School District. The general fund also transferred \$1,122,235 to the capital projects fund for current and future capital projects.

Note 8 - Long-Term Debt

The following are changes in the long-term liabilities for the fiscal year ended June 30, 2016:

	Balance	A 3 3141	A 4	Dating	Balance	Due Within

Series of 2011B in the amount of \$785,000; 2.25% - 4.75% current interest; bonds payable in semi-annual installments; final payment due March 15, 2032	760,000
	\$ <u>56,030,513</u>

Notes Payable

Series of 2008 in the amount of \$1,799,674; 3.0% - 4.60%,	
payable in semi-annual installments; final payment due	\$ <u>1,321,972</u>
October 25, 2028	

The debt service source for the above debt is the general fund. The bonds were issued for capital project purposes. The interest requirements on the 2007 variable rate bonds used in the amounts below were based on the rate effective at year end. Interest on the variable rate bonds shall be no greater than 12% per annum, or the weekly rate, which is determined by the remarketing agent. The general fund typically has been used in prior years to liquidate the liability for capital leases, compensated absences, termination benefits and other post-employment benefit obligations. The net pension liability is allocated between the general fund and proprietary fund as that liability is directly related to and expected to be paid from these two funds.

Note 8 - Long-Term Debt (Cont'd)

The annual requirements of School District funds to amortize all debt outstanding (excluding compensated absences, capital leases and termination benefits) as of June 30, 2016, including interest, sinking fund payments and accretion on the capital appreciation bonds, are as follows:

Year Ended	General Obl	General Obligation Bonds		General Obligation Notes	
June 30,	Principal	Interest	Principal	Interest	Totals
2015	4.2. ((7. 000	\$ 1 125 222	ф ж о з о ж	Φ.σ.σ.ο.ο.	4.222.052
2017	\$ 2,665,000	\$ 1,435,333	\$ 78,397	\$ 55,223	\$ 4,233,953
2018	2,750,000	1,375,924	81,412	52,125	4,259,461
2019	2,850,000	1,306,909	84,427	48,808	4,290,144

	52,967,165	21,055,086	1,321,972	412,860	75,757,083
Accretion to Date	3,063,348	(3,063,348)			
	\$ <u>56,030,513</u>	\$ <u>17,991,738</u>	\$ <u>1,321,972</u>	\$ <u>412,860</u>	\$ <u>75,757,083</u>

Note 9 - Capital Leases

The School District has entered into a lease agreement as lessee for financing the acquisition of copiers. The lease agreement qualifies as a capital lease for accounting purposes and, therefore, has been recorded at the present value of the future minimum lease payments as of the inception date.

The assets acquired through capital leases are as follows:

	Governmental Activities
Asset Machinery and Equipment	\$142,083
Less: Accumulated Depreciation	(85,251)
Total	\$ <u>56,832</u>

The future minimum lease obligations and the net present value of these minimum lease payments, as of June 30, 2016, were as follows:

Note 9 - Capital Leases (Cont'd)

Year Ended June 30,	Governmental Activities
2017 2018	\$31,184 31,184
Total Minimum Lease Payments Less: Amount Representing Interest	62,368 (2,352)
Present Value of Minimum Lease Payments	\$ <u>60,016</u>

Note 10 - Termination Benefits

The School District, as part of the collective bargaining agreement with teachers, has available certain early retirement enhancements to qualified employees. In order to qualify under the current bargaining agreement, the employee must have at least seventeen years of service in Hampton Township School District and retire by June 30, 2013.

Under the program, teachers electing the incentive receive a payment of \$40,000. The payment is being distributed in equal annual installments of \$10,000 which are made directly to the employee's 403(b) plan. The plan was modified under a memorandum of understanding in September 2015. The memorandum of understanding provided benefits to employees if they retired by June 30, 2016 and provides payments of \$30,000 in two installments directly into the employee's 403(b) plan. The School District used a discount rate of 4.5% to calculate the discounted present value of the expected future benefit payments of \$143,540 at June 30, 2016. Nineteen teachers are participating in the original plan and ten teachers are participating in the new plan.

Note 11 - Public School Employees' Retirement System (PSERS)

A. Summary of Significant Accounting Policies

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public School Employees' Retirement System (PSERS) and additions to/deductions from PSERS's fiduciary net position have been determined on the same basis as they are reported by PSERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Note 11 - Public School Employees' Retirement System (PSERS) (Cont'd)

B. General Information about the Pension Plan

1. Plan Description

PSERS is a governmental cost-sharing multi-employer defined benefit pension plan that provides retirement benefits to public school employees of the Commonwealth of Pennsylvania. The members eligible to participate in the System include all full-time public school employees, part-time hourly public school employees who render at least 500 hours of service in the school year, and part-time per diem public school employees who render at least 80 days of service in the school year in any of the reporting entities in Pennsylvania. PSERS issues a publicly available financial report that can be obtained at www.psers.state.pa.us.

2. Benefits Provided

PSERS provides retirement, disability, and death benefits. Members are eligible for monthly retirement benefits upon reaching (a) age 62 with at least 1 year of credited service; (b) age 60 with 30 or more years of credited service; or (c) 35 or more years of service regardless of age. Act 120 of 2010 (Act 120) preserves the benefits of existing members and introduced benefit reductions for individuals who become new members on or after July 1, 2011. Act 120 created two new membership classes, Membership Class T-E (Class T-E) and Membership Class T-F (Class T-F). To qualify for normal retirement, Class T-E and Class T-F members must work until age 65 with a minimum of 3 years of service or attain a total combination of age and service that is equal to or greater than 92 with a minimum of 35 years of service. Benefits are generally equal to 2% or 2.5%, depending upon membership class, of the member's final average salary (as defined in the Code) multiplied by the number of years of credited service. For members whose membership started prior to July 1, 2011, after completion of five years of service, a member's right to the defined benefits is vested and early retirement benefits may be elected. For Class T-E and Class T-F members, the right to benefits is vested after ten years of service.

Participants are eligible for disability retirement benefits after completion of five years of credited service. Such benefits are generally equal to 2% or 2.5%, depending upon membership class, of the member's final average salary (as defined in the Code) multiplied by the number of years of credited service, but not less than one-third of such salary nor greater than the benefit the member would have had at normal retirement age. Members over normal retirement age may apply for disability benefits.

Death benefits are payable upon the death of an active member who has reached age 62 with at least one year of credited service (age 65 with at least three years of credited service for Class T-E and Class T-F members) or who has at least five years of credited service (ten years for Class T-E and Class T-F members). Such benefits are actuarially equivalent to the benefit that would have been effective if the member had retired on the day before death.

Note 11 - Public School Employees' Retirement System (PSERS) (Cont'd)

- B. General Information about the Pension Plan (Cont'd)
 - 3. Contributions

Member Contributions

Active members who joined the System prior to July 22, 1983, contribute at 5.25% (Membership Class T-C) or at 6.50% (Membership Class T-D) of the member's qualifying compensation.

Members who joined the System on or after July 22, 1983, and who were active or inactive as of July 1, 2001, contribute at 6.25% (Membership Class T-C) or at 7.50% (Membership Class T-D) of the member's qualifying compensation.

Members who joined the System after June 30, 2001 and before July 1, 2011, contribute at 7.50% (automatic Membership Class T-D). For all new hires and for members who elected Class T-D membership, the higher contribution rates began with service rendered on or after January 1, 2002.

Members who joined the System after June 30, 2011, automatically contribute at the Membership Class T-E rate of 7.5% (base rate) of the member's qualifying compensation. All new hires after June 30, 2011, who elect Class T-F membership, contribute at 10.3% (base rate) of the member's qualifying compensation. Membership Class T-E and Class T-F are affected by a "shared risk" provision in Act 120 of 2010 that in future fiscal years could cause the Membership Class T-E contribution rate to fluctuate between 7.5% and 9.5% and Membership Class T-F contribution rate to fluctuate between 10.3% and 12.3%.

Employer Contributions

The School District's contractually required contribution rate for fiscal year ended June 30, 2016 was 25.0% of covered payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the School District were \$5,680,668 for the year ended June 30, 2016.

C. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2016, the School District reported a liability of \$74,373,000 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by rolling forward the System's total pension liability as of June 30, 2014 to June 30, 2015. The School District's proportion of the net pension

Note 11 - Public School Employees' Retirement System (PSERS) (Cont'd)

C. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Cont'd)

liability was calculated utilizing the employer's one-year reported covered payroll as it relates to the total one-year reported covered payroll. At June 30, 2015, the School District's proportion was 0.1717%, which was a decrease of 0.006% from its proportion measured as of June 30, 2014.

For the year ended June 30, 2016, the School District recognized pension expense of \$6,636,354. At June 30, 2016, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred	Deferred
	Outflows of	Inflows of
	Resources	Resources
Net difference between expected and		
actual experience	\$ -	\$ 307,000
Net difference between projected and actual		
investment earnings	-	151,000
Changes in proportions	2,036,000	1,177,000
Difference between employer contributions and		
proportionate share of total contributions	201,295	-
Contributions subsequent to the measurement date	5,680,668	
	\$ <u>7,917,963</u>	\$ <u>1,635,000</u>

\$5,680,668 reported as deferred outflows of resources related to pensions resulting from School District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended June 30,	
2017	\$ (227,646)
2018	(227,646)
2019	(227,646)
2020	1,285,233
	\$ <u>602,295</u>

Note 11 - Public School Employees' Retirement System (PSERS) (Cont'd)

C. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Cont'd)

1. Actuarial Assumptions

The total pension liability as of June 30, 2015 was determined by rolling forward the System's total pension liability as of the June 30, 2014 actuarial valuation to June 30, 2015 using the following actuarial assumptions, applied to all periods included in the measurement:

- Actuarial cost method Entry Age Normal level % of pay
- Investment return 7.50%, includes inflation at 3.00%
- Salary increases effected average of 5.50%, which reflects an allowance for inflation of 3.00%, real wage growth of 1.00%, and merit or seniority increase of 1.50%
- Mortality rates were based on the RP-2000 Combined Healthy Annuitant Tables (male and female) with age set back 3 years for both males and females. For disabled annuitants the RP-2000 Combined Disabled Tables (male and female) with age set back 7 years for males and 3 years for females.

The actuarial assumptions used in the June 30, 2014 valuation were based on the experience study that was performed for the five-year period ending June 30, 2010. The recommended assumption changes based on this experience study were adopted by the Board at its March 11, 2011 Board meeting, and were effective beginning with the June 30, 2011 actuarial valuation.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The pension plan's policy in regard to allocation of invested plan assets is established and may be amended by the Board. Plan assets are managed with a long-term objective of achieving and maintaining a fully funded status of the benefits provided through the pension.

		Long-Term
	Target	Expected Real
Asset Class	Allocation	Rate of Return
Public markets global equity	22.5%	4.8%
Private markets (equity)	15.0%	6.6%
Private real estate	12.0%	4.5%
Global fixed income	7.5%	2.4%
U.S. long treasuries	3.0%	1.4%
TIPS	12.0%	1.1%

Note 11 - Public School Employees' Retirement System (PSERS) (Cont'd)

- C. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Cont'd)
 - 1. Actuarial Assumptions (Cont'd)

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
High yield bonds	6.0%	3.3%
Cash	3.0%	0.7%
Absolute return	10.0%	4.9%
Risk parity	10.0%	3.7%
MLPs/Infrastructure	5.0%	5.2%
Commodities	8.0%	3.1%
Financing (LIBOR)	(<u>14.0%</u>)	1.1%
	100%	

The above was the Board's adopted asset allocation policy and best estimates of geometric real rates of return for each major asset class as of June 30, 2015.

2. Discount Rate

The discount rate used to measure the total pension liability was 7.50%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at contractually required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

3. Sensitivity of School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability, calculated using the discount rate of 7.50%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.50%) or 1 percentage point higher (8.50%) than the current rate:

Note 11 - Public School Employees' Retirement System (PSERS) (Cont'd)

- C. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Cont'd)
 - 3. Sensitivity of School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate (Cont'd)

	(In thousands)			
	1.00%	1.00%		
	Decrease	Discount Rate	Increase	
	6.50%	7.50%	8.50%	
School District's proportionate				
share of the net pension liability	\$91,671	\$74,373	\$59,833	

4. Pension Plan Fiduciary Net Position

Detailed information about PSERS' fiduciary net position is available in PSERS Comprehensive Annual Financial Report which can be found on the System's website at www.psers.state.pa.us.

Note 12 - Contingent Liabilities

Hampton Township School District participates in a number of federally assisted grant programs, principal of which are IDEA and National School Lunch Program. The programs are subject to program compliance audits by the grantors or their representatives. The audits of some of these programs for and including the year ended June 30, 2016 have not yet been conducted. Accordingly, the School District's compliance with applicable grant requirements will be established at some future date. The amount, if any, of expenditures which may be disallowed by the granting agencies cannot be determined at this time although the School District expects such amounts, if any, to be immaterial.

Note 13 - Post-Employment Healthcare Plan

A. Plan Description

Hampton Township School District administers a single-employer defined benefit healthcare plan ("The Supplemental Health Plan"). The plan provides medical, and in some cases dental and vision, for six groups of employees: teachers; administrators; secretaries/para-professionals; custodial/maintenance cafeteria and

Note 13 - Post-Employment Healthcare Plan (Cont'd)

A. Plan Description (Cont'd)

"other". The benefits provided are for the eligible retirees and their spouses through the School District group health insurance plan which covers both active and retired members. The general fund is the fund to liquidate the other post-employment benefit obligation. Benefit provisions are mostly established through negotiations between the School District and union or group representing the employees. The plan does not issue a publicly available financial report.

B. Funding Policy

Medical Benefits

Qualified retirees under PA Act 110 can elect to remain in the School District's medical benefits plan provided they pay 100% of the premium rate.

For employees who retire and remain in the medical plan, they have a choice of either a PPO or an EPO product. Both programs are provided through the Allegheny County Schools Health Insurance Consortium (ACSHIC) and are administered by Highmark. The PPO program is referred to as Community Blue Flex PPO and the EPO is referred to as Community Blue Flex EPO. A summary of the benefits available are as follows:

Eligibility/Contributions

The eligibility criteria for the current incentive is as follows: an employee must have at least 17 years with the School District and the employee must meet the "superannuation" criteria under PSERS. The superannuation criteria is 35 years of PSERS service at any age, 30 years of service with attainment of age 60, or any amount of service and attainment of age 62. Retirees are eligible to purchase medical, dental and vision benefits through the School District's insurance carriers. All retirees must pay 100% of the School District's cost for the purchase of medical, dental and vision benefits. Retirees can opt to purchase medical benefits until they reach the age of 65. Dental and vision benefits may be purchased for as long as the retiree and/or spouse chooses.

For the year ended June 30, 2016, the School District contributed \$-0-. Plan members receiving benefits contributed \$275,190. The plan is financed on a pay-as-you-go basis.

C. Annual OPEB Cost and Net OPEB Obligation

The School District's annual other post-employment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (funding excess) over

Note 13 - Post-Employment Healthcare Plan (Cont'd)

C. Annual OPEB Cost and Net OPEB Obligation (Cont'd)

a period not to exceed thirty years. The following table shows the components of the School District's annual OPEB cost for the year, the amount actually contributed to the plan and changes in the School District's net OPEB obligation.

Annual Required Contribution	\$ 297,579
Interest on Net OPEB Obligation	20,662
Adjustment to Annual Required Contribution	(63,687)
Annual OPEB Cost (Expense)	254,554
Contributions Made	(190,847)
Increase on OPEB Obligation	63,707
Net OPEB Obligation - Beginning of Year	516,562
Net OPEB Obligation - End of Year	\$ <u>580,269</u>

The School District's OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation for the years ended June 30, 2016, 2015 and 2014, is as follows.

Fiscal		Percentage of	Net
Year	Annual	Annual OPEB	OPEB
Ended	OPEB Cost	Cost Contributed	Obligation
06/30/16	\$254,554	74.97%	\$580,269
06/30/15	261,749	67.00%	516,562
06/30/14	420,028	76.88%	430,189

D. Funded Status and Funding Progress

As of July 1, 2014, the actuarial accrued liability for benefits was \$1,751,677, all of which was unfunded. The covered payroll (annual payroll of active employees covered by the plan) was \$22,489,769 and the ratio of unfunded actuarial accrued liability to the covered payroll was 7.8%.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and the healthcare cost trend. Amounts determined regarding the funded status of the

Note 13 - Post-Employment Healthcare Plan (Cont'd)

D. Funded Status and Funding Progress (Cont'd)

plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits. Multi-year information will be presented in future years.

E. Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with long-term perspective of the calculations.

In the July 1, 2014 actuarial valuation, the projected unit credit actuarial cost method was used. The actuarial assumptions included a discount rate of 4.0%; an annual healthcare cost trend rate of 7% initially decreasing by 0.25% per year to an ultimate rate of 4.5% and an inflation rate of 2.75%. The method used to determine the actuarial value of assets is not applicable since there are no plan assets. The unfunded actuarial accrued liability is being amortized using the level dollar method. The amortization period for the most recent actuarial valuation is ten years. The period is open.

Note 14 - Risk Management

The School District is one of forty-six members of the Allegheny County School Health Insurance Consortium (Consortium) which purchases health benefits on behalf of participating public school districts. The School District is billed monthly based on employee count and coverage information at rates established by the Consortium at the beginning of each fiscal year. As the Consortium is self-insured, rates are established with the objective of satisfying estimated claims and other costs, as well as maintaining working capital requirements. Contributions to the Consortium totaled \$3,454,828 and \$3,431,179 for the years ended June 30, 2016 and 2015, respectively.

Participating school districts are permitted to withdraw from the Consortium under terms specified in the agreement. Withdrawing participants are entitled to or responsible for a proportionate share of the Consortium net position or deficiency in net position, respectively, as determined on the fiscal year-end date after withdrawal. As of June 30, 2016, the net position of the Consortium were \$43,916,293 of which \$621,855 is attributable to the School District.

Note 14 - Risk Management (Cont'd)

The School District participates in an insurance program offered by a commercial insurance company. It purchases commercial insurance policies for risks of losses for casualty, workmen's compensation and liability claims.

The School District is exposed to various risks of loss related to tort; theft of, damage to and destruction of assets; errors and omissions; injuries to employees and natural disasters. These risks are covered by commercial insurance purchased from independent third parties.

Settled claims for these risks have not exceeded commercial insurance coverage for the past three years.

Note 15 - On-Behalf Payments

The amounts recognized for revenues and expenditures for on-behalf payments relating to fringe benefits for the year ended June 30, 2016 was \$3,831,260. This includes \$2,942,763 recognized for revenues and expenditures relating to pension contributions for its employees that the Commonwealth of Pennsylvania paid to the Public School Employees' Retirement System (PSERS) for pension and \$888,497 to the federal government for social security and Medicare taxes for the year ended June 30, 2016. The School District pays these on-behalf payments directly to PSERS and the government and is reimbursed by the Commonwealth for their appropriate share.

Note 16 - Derivative Instruments

The fair value balances and notional amounts of derivative instruments outstanding at June 30, 2016, classified by type, and the change in fair value of such derivative instruments for the year ended as reported in the June 30, 2016 financial statements, are as follows:

	Change in Fai	r Value	Fair Value at Jun	e 30, 2016	Notional
Governmental Activities	Classification	Amount	Classification	Amount	in Thousands
Investment Derivative Instruments:					
Interest rate Swap- 2007; Pay Fixed	Investment Revenue	\$(519,766)	Investment	\$(4,979,766)	\$18,350

Note 17 - Construction Commitment

As of June 30, 2016, the School District had construction commitments in the amount of approximately \$68,875 for various improvements to school facilities. It is anticipated these projects will be completed in the 2016/2017 school year.

Note 18 - Subsequent Event

In September 2016, the School District issued general obligation bonds, Series of 2016 in the amount of \$8,365,000. The proceeds from the sale of the bonds will be used to currently refund a portion of the general obligation bonds Series A of 2006 maturing on or after November 15, 2017 and pay the costs of issuance.

Hampton Township School District Note to Required Supplementary Information Budget Comparison June 30, 2016

Note 1 - Budgetary Information

Budgets are adopted on a basis consistent with U. S. generally accepted accounting principles. Annual appropriated budgets are adopted for the general fund. All annual appropriations lapse at year-end.

All budget amounts presented in the accompanying required supplementary information reflect the original budget and the amended budget (which have been adjusted for legally authorized revisions to the annual budget during the year).

The sum of the taxes collected and the taxes liened do not equal the taxes levied because of penalties assessed, discounts received and Allegheny County real estate change orders.

Tax rate is expressed in mills. One mill of tax is equal to \$1.00 for every \$1,000 of assessed property value.

(1) - The District's Total tax levy for the years ended June 30, 2016, June 30, 2015, June 30, 2014, June 30, 2013, June 30, 2012, June 30, 2011, June 30, 2010 and June 30, 2009 was reduced by the Commonwealth of Pennsylvania's Property Tax Relief Program. The Commonwealth distributed the following amounts to the School District for property tax relief to its residents. The property tax relief was in the form of a homestead/farmstead exclusion to the resident's taxable assessed value.

	Total Property	Property Tax
Year Ending	Tax Distibution	Relief per
	to District	Approved Property
June 30, 2016	\$860,340	\$157
June 30, 2015	862,557	157
June 30, 2014	858,457	154
June 30, 2013	858,284	156
June 30, 2012	858,278	157
June 30, 2011	859,492	159
June 30, 2010	858,726	161
June 30, 2009	859,427	165

^{(2) -} The Tax Rate was reduced in the 2013-14 fiscal year to account for the County-wide reassessment. The District's tax rate was reduced by 18.55% (from 21.35 mills to 17.39 mills) to achieve the revenue neutral tax rate.

A 0.20 mill increase was approved in the 2013-14 budget - resulting in the final 2013-14 tax rate of 17.59 mills.

The District's tax rate was reduced by 18.55% (from 21.35 mills to 17.39 mills) to achieve the revenue neutral tax rate. A 0.20 mill increase was approved in the 2013-14 budget resulting in the final 2013-14 tax rate of 17.59 mills.
- (b) The year ended June 30, 2013 tax rates for Hampton Township and Allegheny County include the 2013 Allegheny County reassessment values. The year ended June 30, 2013 Hampton Township School District rate was based on the 2012 Assessed Value. This is because the Township and County fiscal years end on December 31st whereas the School District's fiscal year ends on June 30th.

HAMPTON TOWNSHIP SCHOOL DISTRICT Major Employers within the School District Comparison 2015-16 Fiscal Year and 2006-07 Fiscal Year

	Dul. 4 . 0	Approximate Employment	Percent of Total Employment	Approximate Employment	Percent of Total Employment

Approximate District-Wide Employment		6,200		6,100	

Source: Earned Income Tax and Local Services Tax Reports

Note: Differences in employment numbers are due to a change in the source of the data from the Occupation Privilege Tax to the Local Services Tax in 2007. The Local Services Tax has fewer exemptions than the Occupational Privilege Tax and therefore the report includes more seasonal and part-time employees than were previously included.

DEBT CAPACITY STATISTICS

These schedules present information to assist the reader in assessing the amount of the District's debt and the District's ability to issue future debt.

HAMPTON TOWNSHIP SCHOOL DISTRICT Cash Flow Analysis 2015-16 General Fund

Month	Receipts	Disbursements
July	\$4,017,142	\$3,123,437
August	8,790,402	4,729,840
September	14,452,703	4,438,998
October	1,317,471	3,344,423
November	1,985,181	3,973,496
December	902,156	4,512,264
January	6,419,902	2,748,824
February	601,083	3,187,057
March	2,233,369	4,846,933
April	2,003,913	2,944,765
May	765,271	3,368,175
June	<u>3,313,073</u>	<u>6,862,184</u>
Total	<u>\$46,801,666</u>	<u>\$48,080,396</u>

Receipts are highest in the months of August and September, due to real estate tax collections. The "spike" in January receipts was due to the lump sum distribtuion of State funds covering the months of July to December.

Disbursements are highest in the month of June, due to the balance of contract salary payments

^{(1) -} Clairton School District's tax rate has (2) components - a millage rate for land and a millage rate for buildings. For this comparison - a 25% / 75% split between land / building is used to determine a comparable rate to other school districts.

HAMPTON TOWNSHIP SCHOOL DISTRICT AND HAMPTON TOWNSHIP

The School District

The Hampton Township School District shares the same boundaries and residents as Hampton Township. The District encompasses approximately 16 square miles in northern Allegheny County and is located approximately 12 miles northeast of the City of Pittsburgh. The first school in Hampton was opened in 1800 in a log cabin. The first public schools were recorded with the Commonwealth of Pennsylvania in 1862. The District is bordered by Shaler Township (Shaler Area School District) on the south; McCandless Township (North Allegheny School District) on the west; Richland Township (Pine-Richland School District) on the north; and West Deer Township (Deer Lakes School District) and Indiana Township (Fox Chapel Area School District) on the east.

The Township

The Township of Hampton was founded in 1861 and incorporated as a local government within the Commonwealth of Pennsylvania in 1875. Effective August 27, 1981, the Township became a Home Rule Municipality under Pennsylvania Act 62, the Home Rule Charter and Optional Plans Law, following a referendum. The Township is governed by a five member Council, each of which is elected at large.

Hampton Township was named after Judge Moses Hampton and included parts of present day McCandless, West Deer and Indiana Townships. Early Hampton was made up of eight villages that slowly merged into Hampton Township, as it is known today. During the 1800s, Hampton was known as an agricultural center with farming being the major trade. The Township eventually moved from an agricultural based community to a residential community.

Today, Hampton serves as a bedroom community for the Metropolitan Pittsburgh area. In addition to the light industry present in the Township, the Route 8 corridor provides commercial and retail businesses. The majority of the land use (88% of the 2016 assessed value) in the Township is residential.

Because of its proximity to Pittsburgh, Hampton enjoys many of the benefits of a larger city. These benefits include higher education, culture and the arts, professional sports and health care.

Members of the Board Hampton Township School District Allison Park, Pennsylvania

Dear Members:

The reports contained in this single audit section are required in addition to the financial statements. The various reports for Hampton Township School District for the period ended June 30, 2016 were prepared to fulfill the requirements of Government Auditing Standards and the Uniform Grant Guidance. A summary of the reports are as follows:

- A. Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*
- B. Independent Auditor's Report on Compliance for Each Major Program and on Internal Control Over Compliance Required by the Uniform Guidance
- C. Schedule of Findings and Questioned Costs
- D. Schedule of Expenditures of Federal Awards
- E. List of Report Distribution

Respectfully submitted,

HOSACK, SPECHT, MUETZEL & WOOD LLP

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With Government Auditing Standards

Members of the Board Hampton Township School District Allison Park, Pennsylvania

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Hampton Township School District as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise Hampton Township School District's basic financial statements, and have issued our report thereon dated December 20, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Hampton Township School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Hampton Township School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Hampton Township School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Members of the Board Hampton Township School District Exhibit A Page 2

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Hampton Township School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditor's Report on Compliance for Each Major Program and on Internal Control Over Compliance Required by the Uniform Guidance

Members of the Board Hampton Township School District Allison Park, Pennsylvania

Report on Compliance for Each Major Federal Program

We have audited Hampton Township School District's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Hampton Township School District's major federal programs for the year ended June 30, 2016. Hampton Township School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Hampton Township School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Hampton Township School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

Members of the Board Hampton Township School District Exhibit B Page 2

Report on Compliance for Each Major Federal Program (Cont'd)

Auditor's Responsibility (Cont'd)

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Hampton Township School District's compliance.

Opinion on Each Major Federal Program

In our opinion, Hampton Township School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2016.

Report on Internal Control Over Compliance

Management of Hampton Township School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Hampton Township School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Hampton Township School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Members of the Board Hampton Township School District Exhibit B Page 3

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

See Accompanying Notes to Schedule of Expenditures of Federal Awards

Hampton Township School District Notes to Schedule of Expenditures of Federal Awards For the Year Ended June 30, 2016

Note A - Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal award activity of Hampton Township School District under programs of the federal government for the year ended June 30, 2016. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of Hampton Township School District, it is not intended to and does not present the financial position, changes in net position, or cash flows of Hampton Township School District.

Note B - Summary of Significant Accounting Policies

- (1) Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.
- (2) Hampton Township School District has elected not to use the 10 percent de minimis indirect cost rate as allowed under the Uniform Guidance.

Note C - Source Code

The Source Code (I) indicates funds received indirectly.

Note D - Reconciliation with Subsidy Confirmation

Amount Received Per Schedule	\$ 719,367
Add: State Funding on Confirmation	30,652
Less: Pass Through AIU	(206,698)
Less: Donated Commodities	(84,650)
Less: Title 19	(1,723)
Per Subsidy Confirmation	\$ <u>456,948</u>

Note E - Subrecipients

The School District did not pass through any federal expenditures to subrecipients.
