STUDENT BEHAVIOR EXPECTATIONS
FOR HAMPTON TOWNSHIP SCHOOL DISTRICT
ELEMENTARY SCHOOLS

(Revised June 2012)
The Hampton Township Elementary Code of Conduct is designed to help teach young children responsible behavior. Just as students must learn academic skills, they must also acquire the requisite knowledge that will enable them to become ethical and responsible citizens.

A positive school climate is characterized by quality teaching by instructors and effective learning by students. This requires a safe and orderly environment for all who work in and attend the schools, along with an emphasis on citizenship and adherence to rules applied equitably and fairly to all in the Hampton Township community. We believe that parents/guardians and the community are essential partners in the educational process and must be properly involved and accountable for the achievement and behavior of their children.

The elementary disciplinary program makes provision for the school and home to intervene in inappropriate behavior as soon as possible. Early intervention permits the school to identify issues or concerns for the student and the parent or guardian, giving parents/guardians and school personnel the opportunity to closely work together.

The Positive Behavior Support Model in the Hampton Township School District

What is Positive Behavior Support (PBS)?

School-Wide Positive Behavior Support (PBS) is a proactive, team-based approach for creating and sustaining safe and effective schools. Emphasis is placed on prevention of problem behavior, development of positive social skills, and the use of data-based problem solving for addressing existing behavioral concerns. Positive Behavior Support (PBS) will be utilized as a tool in the Hampton Township School District elementary buildings to help improve the social and learning behaviors of students, and decrease disruptions that interfere with learning.

PBS provides a positive focus to encourage desirable student behaviors. A set of universal expectations for behavior, positively stated, is established for all students in all locations of the school. These expectations generally promote core values such as respect, responsibility, caring, citizenship, and safety. Interventions and strategies are implemented to teach and reinforce these expectations. These include:

- **Periodic direct instruction in specific student behaviors that demonstrate the core values in various locations in the school.**

- **Generous quantities of positive adult/teacher attention and other kinds of reinforcement to students for demonstrating positive behaviors, especially specific behavioral expectations identified by the school.**
• Predictable consequences for behavioral infractions that are delivered consistently by all staff in a professional manner throughout the entire school. Consequences are not primarily punitive in nature; they are an opportunity for the student to learn from his or her mistakes and to accept responsibility for the choices that he or she made.

PBS also incorporates a few simple systems practices that are crucial to sustaining the program over time. These include:

• The establishment of a representative, school-based PBS team with a strong administrative presence and support. The PBS team uses the “framework” of school-wide PBS to design that school’s unique set of practices.

• PBS activities are embedded into existing school activities such as Response to Instruction and Intervention (RtII), Olweus Bullying Program, Student Recognition and Character Education.

• The school establishes a system for using behavioral data (e.g., office discipline referrals or some other method of incident reporting). These data are analyzed and used in a robust way to guide the design and implementation of additional behavior supports, especially at the targeted and intensive levels.
**Purpose Statement**

The Hampton Township Elementary Schools foster a positive school community. All students, staff, parents and community members will collaboratively be responsible for building and maintaining a learning environment that promotes the academic, behavioral, and social growth of children.
