Driving /Parking/Riding Regulations

The administration expects all parents and students to read and comply with all of the rules and regulations if they choose not to use transportation provided by the school district. Driving a vehicle is a serious responsibility. The district will not hesitate to revoke a student's parking pass for any irresponsible behavior. Expulsion from school for any reason will result in an automatic permit revocation with no refund. A student with an expulsion from a previous school year will not be eligible for a parking permit. The school district is not responsible for any theft, accidents, or property damage that may occur in the parking lot. **The school district strongly recommends that students use transportation provided by the school district.**

We, the undersigned, verify that the information on this application is true and correct and that we have read and will comply with all regulations as stated on the reverse side of this application. We understand that failure to comply with any of the rules, policies, laws or regulations may/will result in revocation or temporary suspension of the student's parking permit. If the permit is revoked or suspended for any reason, we further understand that the parking permit fee of \$45.00 is not refundable because this fee is deposited into the student activities fund. Any falsified information on this application will result in the immediate revocation of the permit.

PARKING ON SCHOOL PROPERTY

Parking at school is a privilege and it must be treated as such. A parking permit may be suspended or revoked if a student's behavior in school is found to be inappropriate or unacceptable. Student drivers are subject to state and township regulations when operating an automobile on school grounds. Student parking is only available to juniors and seniors with a valid driver's license. The regulations governing student drivers ***will be strictly enforced.***

Driving privileges may be immediately revoked if/when the District becomes aware of any student driver being issued a warning or citation for any summary violation by law enforcement while traveling on or near school district property. The incident will be reviewed by school administration for sanctions such as warning, suspension or revocation of the student's parking permit.

We realize there may be an occasion that requires a student, not in possession of a permit, to drive to school. Students must receive permission from a school administrator and a temporary permit will be assigned if accommodations can be made to permit a student to park on school grounds. Requests should be made three (3) days prior to the desired date.
